Improving Science-Business Linkages – A Swedish Perspective

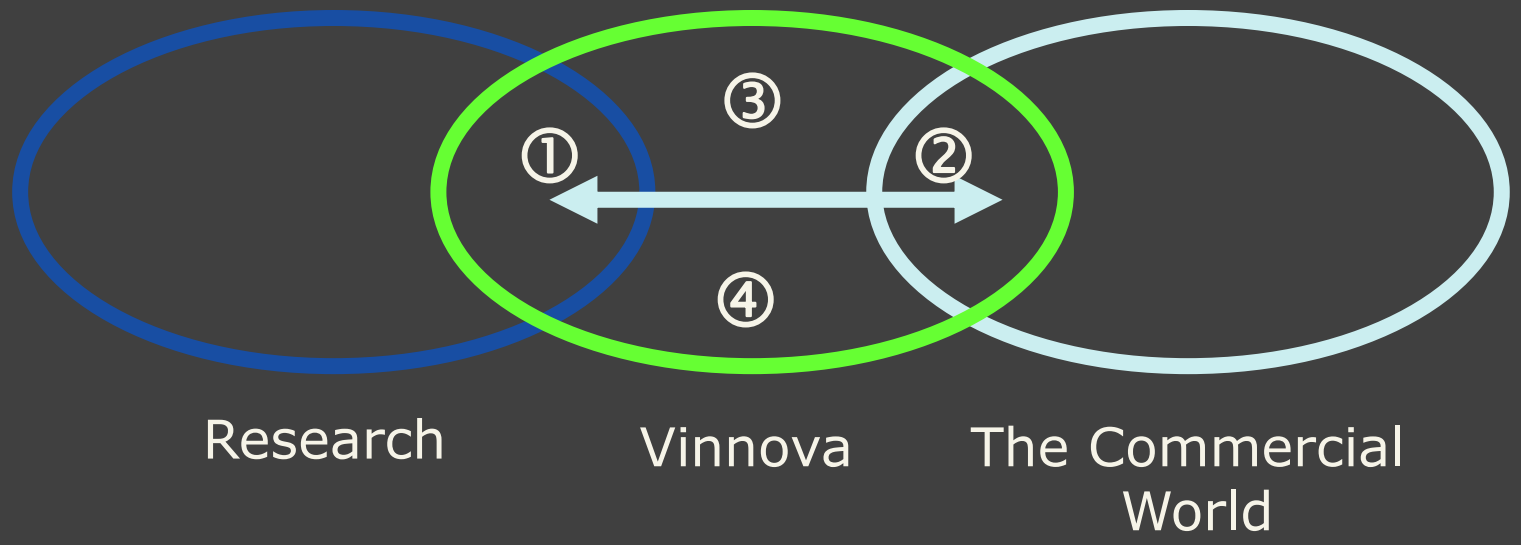
KJELL- HÅKAN NÄRFELT,

CHIEF STRATEGY ADVISOR

VINNOVA

Sweden's Innovation Agency

Research and Innovation for Sustainable Growth



❶ Support the creation of new market inspired research results

❷ Support the creation of ”bridge heads” on the market for R&D based innovations

❸ Stimulate the creation of networks between industry, finance, academia and public org.

❹ Support the adaptation of R&D results for commercial exploitation

VINNOVA

It's a systemic effort driven by

- Trusted networks and relationships between key people and organisations involved in knowledge valorisation
- Value creation, not knowledge transfer
- Intellectual assets and tacit knowledge, not codified knowledge and intellectual property rights
- Entrepreneurial skills and entrepreneurial processes across stakeholder boarders

Thank you!
