European IP Helpdesk
IPR and Software

30 October 2025

European IP Helpdesk

- Service initiative of the European Commission
- Addressing **current and potential beneficiaries of EU-funded projects, researchers and EU SMEs**
- Free-of-charge first-line support on intellectual property (IP)
- Hands-on IP and innovation management support
- International pool of IP experts from various thematic fields
- Unique cooperation scheme with the Enterprise Europe Network: 43 ambassadors from 26 EU countries

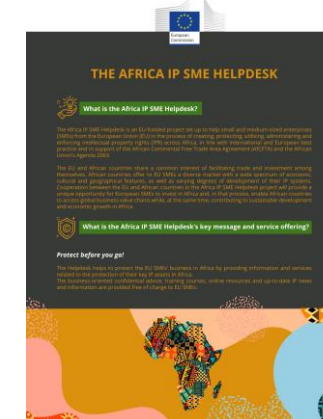

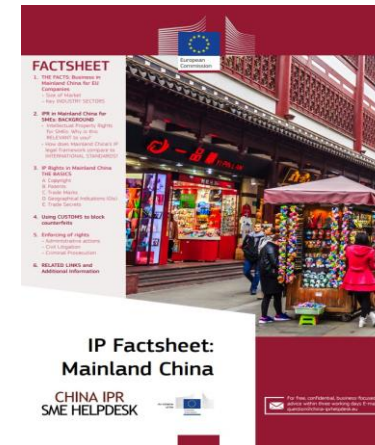

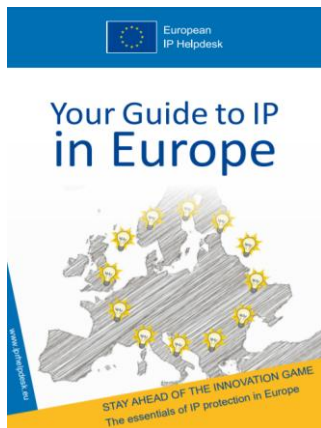

The EC IP Helpdesks

EC IP (SME) Helpdesk Hub – Gateway to Information

- E-learning modules & more
- Guides / Topic, country, sector-specific factsheets / Infographics
- Case studies

Stay ahead of the innovation game.

IPR and Software

Dr Eugene Sweeney, CEO, Iambic Innovation Ltd
Senior IP Policy Advisor, European IP Helpdesk
es@iambicinnovation.com

1

www.iprhelpdesk.eu

Today's speaker

Dr. Eugene Sweeney
*Director, Iambic Innovation Ltd; Senior Advisor, European IP Helpdesk
International (ISO) and European (CEN) Standards Committee Member for **Innovation Management and IP Management***

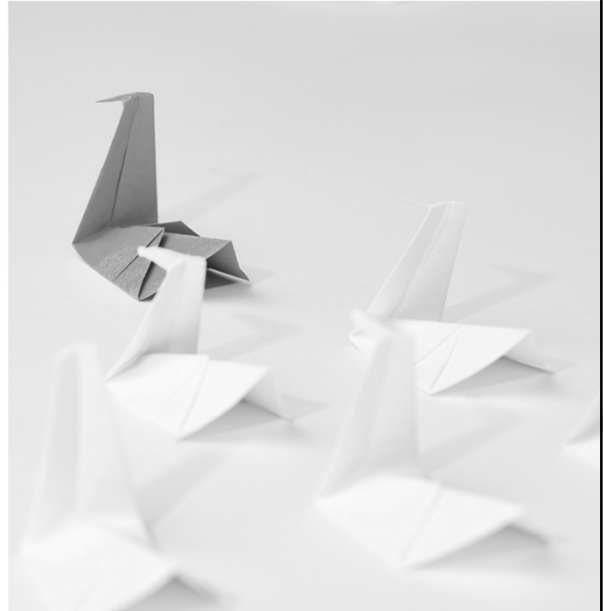

- ☐ **> 40 years in the software industry**
- ☐ 1970's **Researcher** – computer modelling/simulation
- ☐ 1978 **First start-up:** microcomputer software applications for engineers
- ☐ 1980's **Computer & Network industry:** Developing, sourcing and taking new software and ICT technologies to market
- ☐ 1990's **Early-stage technology investment** and commercialisation (software & ICT)
- ☐ 2000 - **Consultant** in Innovation, IPR and research exploitation

2

Roadmap

- **What is special about software**
- **Why and how to protect software**
- **Software exploitation**

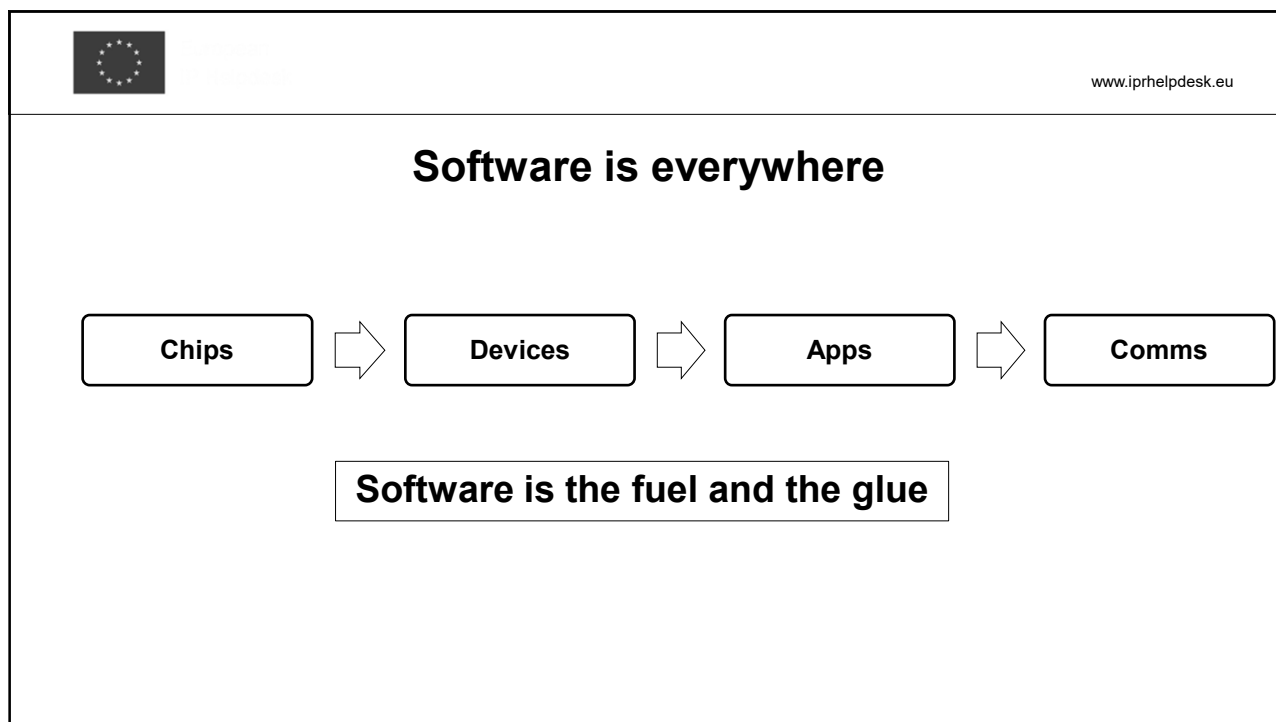

3

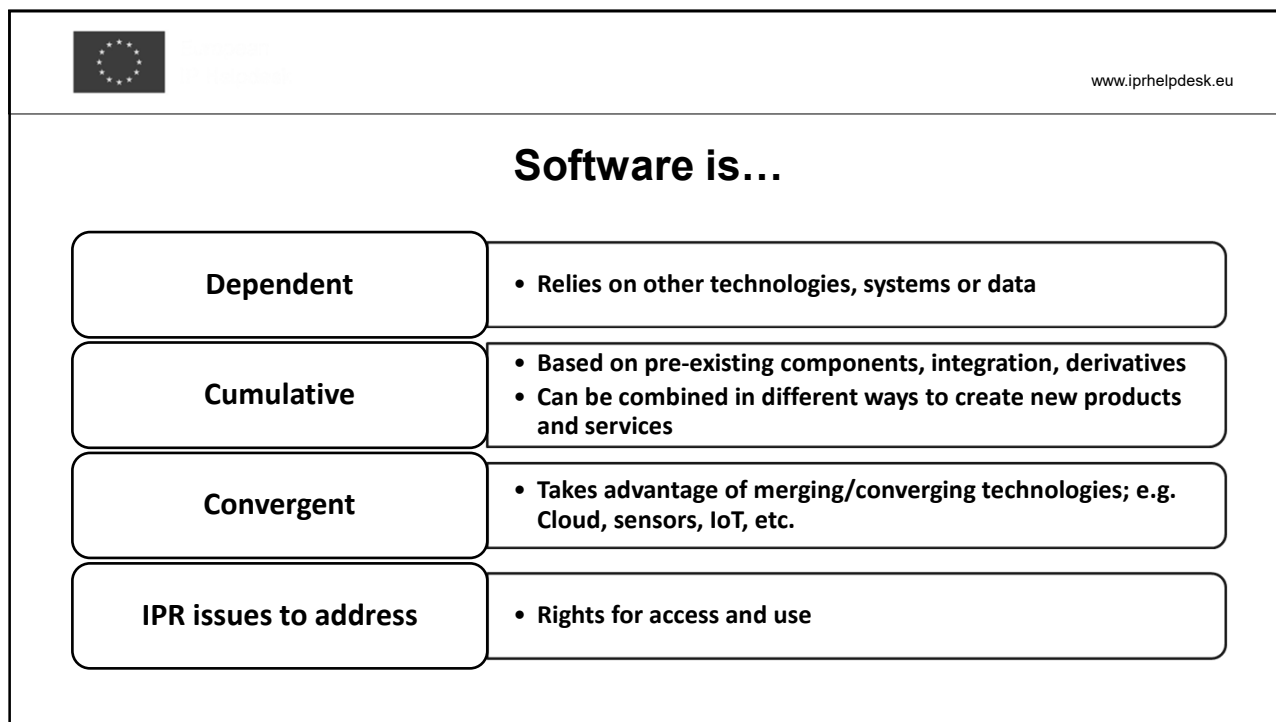

WHAT'S SPECIAL ABOUT SOFTWARE?

4

5

6

www.iprhelpdesk.eu

Software can...

Software can operate globally	<ul style="list-style-type: none">• Rapid scalability
Software can be trans-border	<ul style="list-style-type: none">• Cloud, Internet, IoT, blockchain, AirBnB, etc.
Issues to address	<ul style="list-style-type: none">• Language, cultural, regulatory, IPR, privacy and security

7

www.iprhelpdesk.eu

Software has many facets

Different forms	<ul style="list-style-type: none">• source code, executable
Can be delivered in many ways	<ul style="list-style-type: none">• product, service
Any...	<ul style="list-style-type: none">• time, place, device
More than technology	<ul style="list-style-type: none">• aesthetics, brands, marketing, etc
Multiple IP Rights	<ul style="list-style-type: none">• Patent, copyright, design rights, etc

8

Dynamic and disruptive

It moves and changes **fast**

short life-cycles

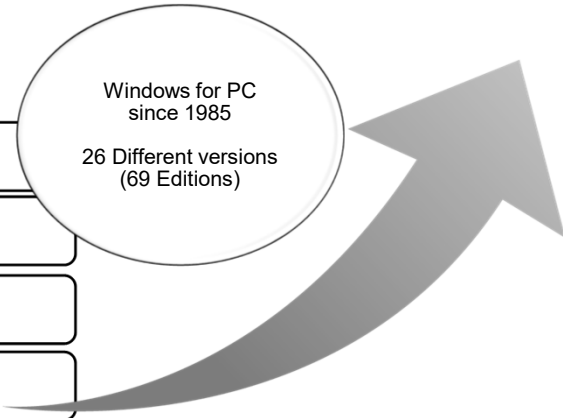

New paradigms and applications

Highly **scalable** with high potential

Less capital needed to get going

Windows for PC
since 1985

26 Different versions
(69 Editions)

9

PROTECTING SOFTWARE (WHY AND HOW?)

10

www.iprhelpdesk.eu

Intellectual Property (IP)

Products of the mind

Assets which can be traded

The **KEY** assets in any research project or company

AND other intangible assets
(know how, people, brand value)

- Inventions
- Software code
- New methods
- Manuals/Reports
- Designs (aesthetic/functional)
- Databases
- Works of art
- Music
- Videos
- Books
- Roadmaps
- etc

11

www.iprhelpdesk.eu

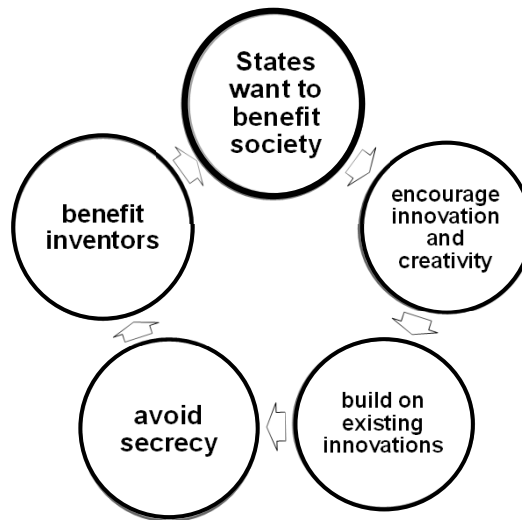

Intellectual Property Right (IPR)

Patents	Some legal rights come into existence automatically
Copyright	Some need registration
Design Rights	Confidentiality Agreements (Know-how)
Database Rights	Secrets (Trade Secrets)
Trade marks	Time limited rights
Plant Breeders Rights	National rights
Utility Models/petty patents	
Plant varieties	
etc	

12

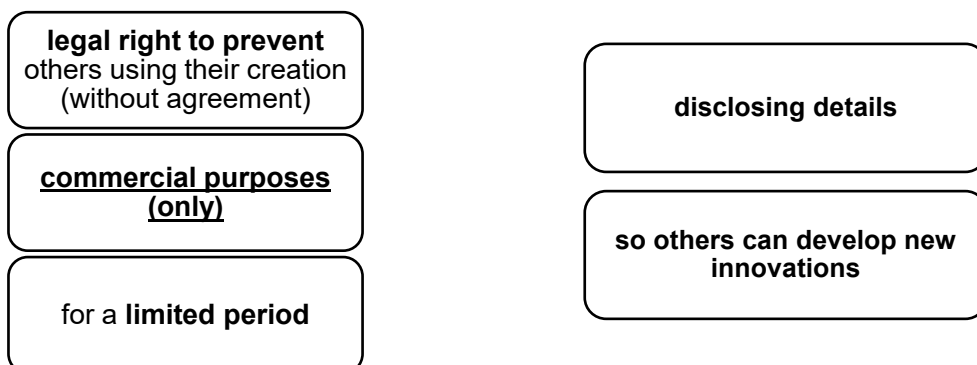

Why IP Rights?

13

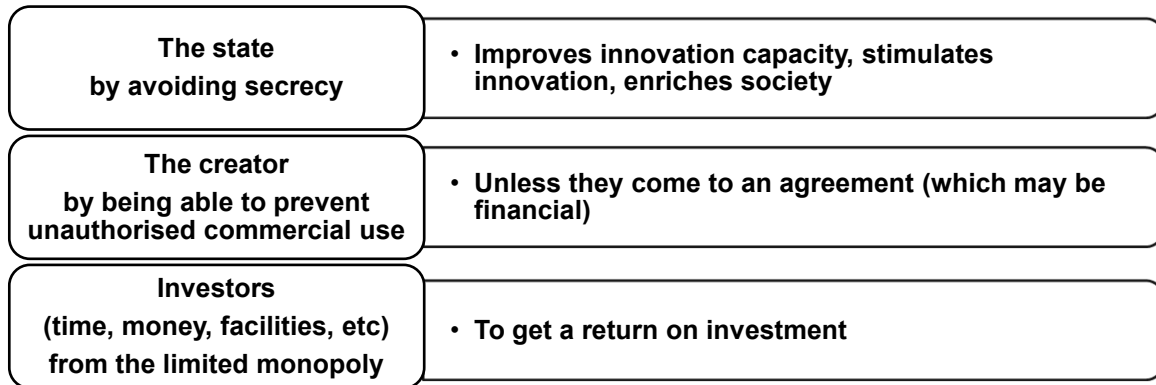

What is the deal?

14

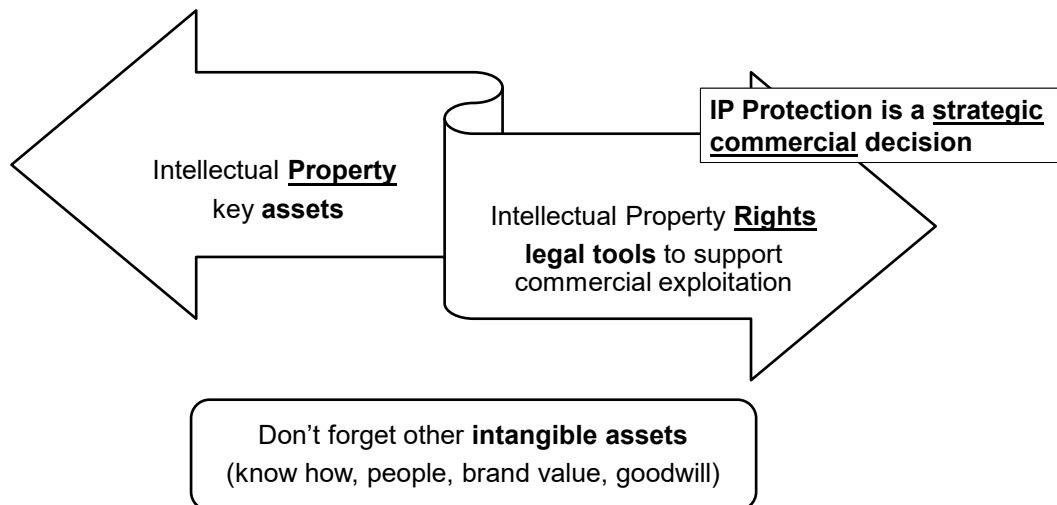

Who benefits?

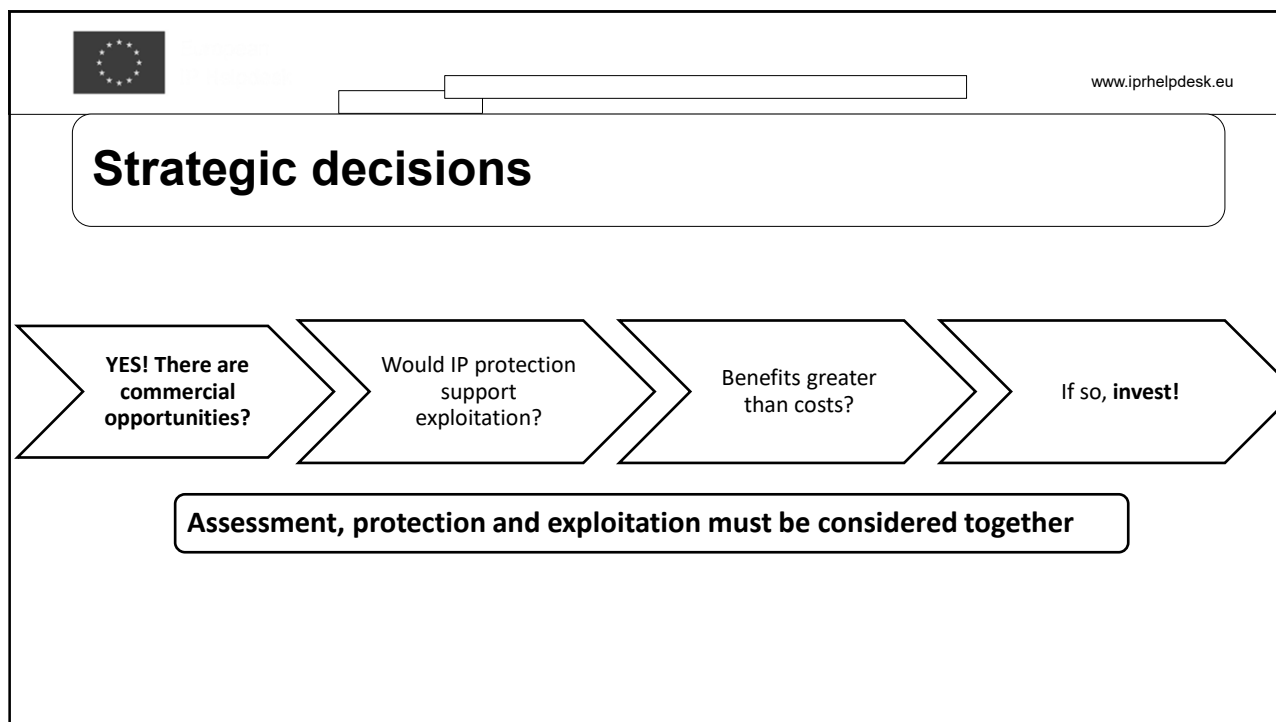

15

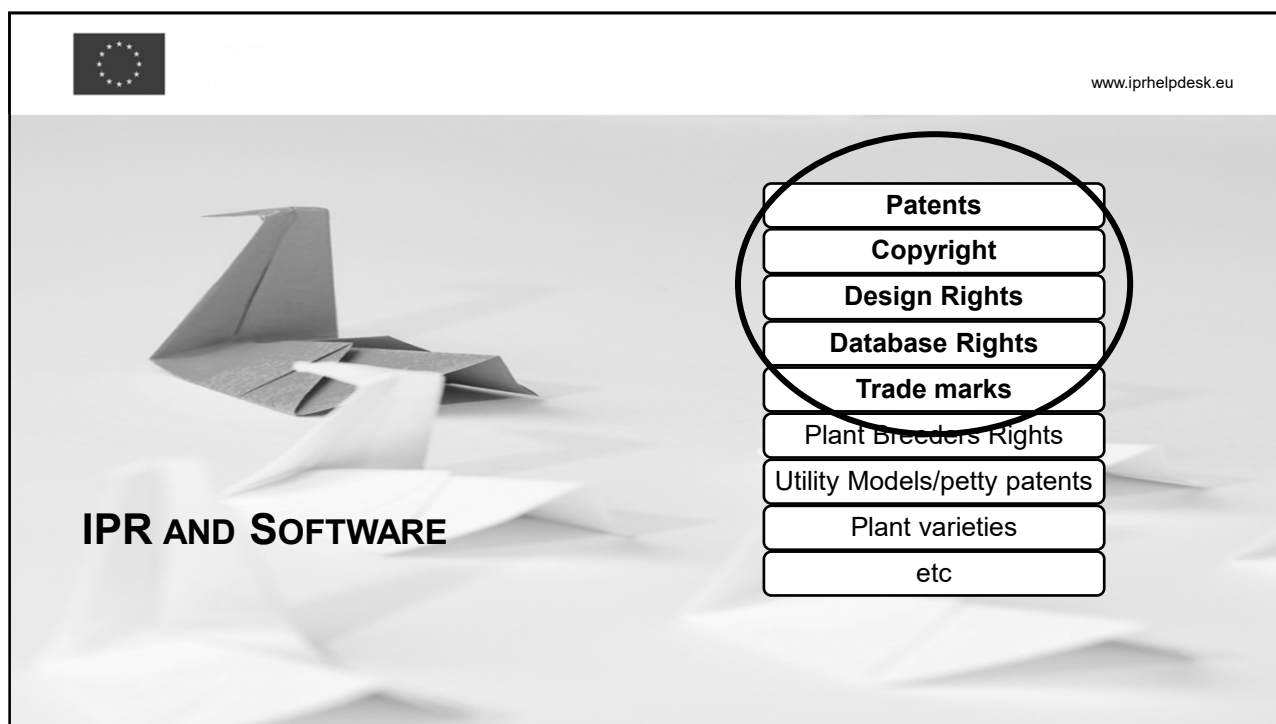

Don't confuse IP and IPR

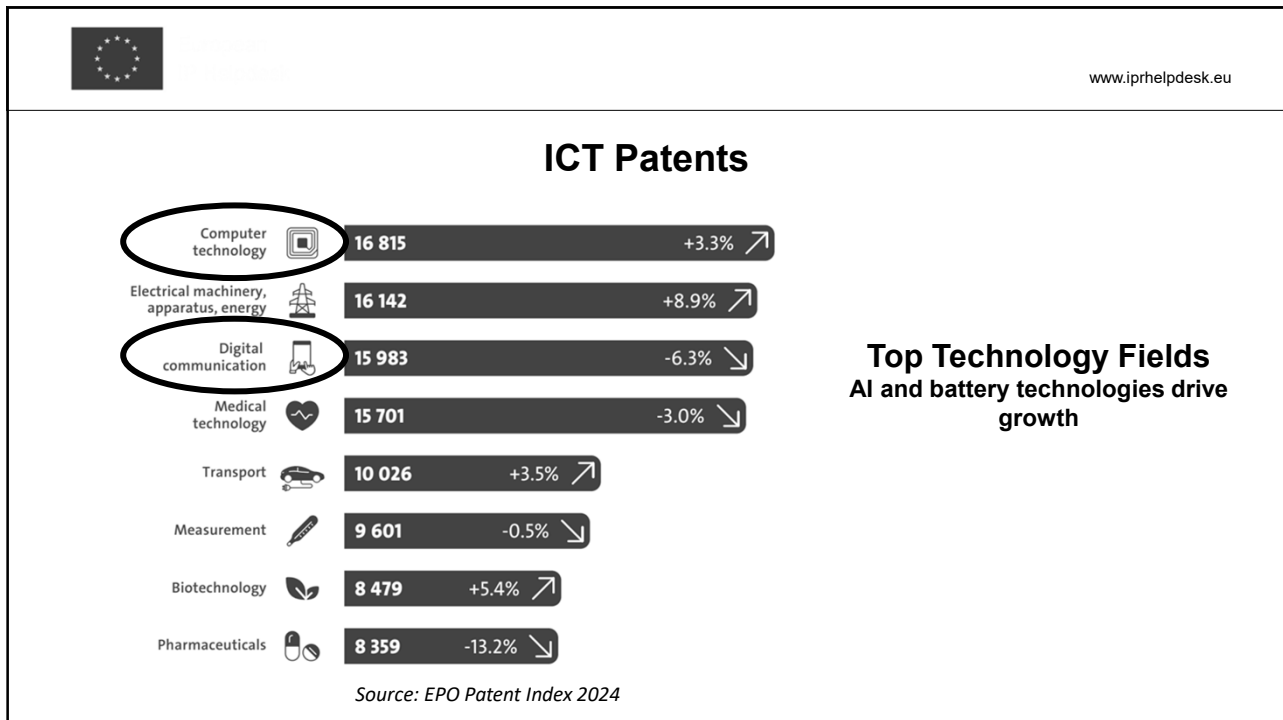

16

17

18

19

www.iprhelpdesk.eu

What can you patent?

Almost anything of technical character that is not a mere discovery and is:

- **New/Novel** (not previously disclosed publicly)
- **Inventive** (not obvious to “one skilled in the art”)
- **Industrially applicable/has a technical effect**
- **Sufficiently described**

What can't you Patent?

- Computer programs
- Scientific theories
- Mathematical methods/algorithms
- Aesthetic creations
- Schemes, rules and methods for performing mental acts
- Playing games or doing business
- Presentations of information

Some important exceptions in law and its interpretation in the USA and elsewhere

20

www.iprhelpdesk.eu

Software Patents in Europe.. European Patent Convention

Computer programs are not patentable	software code
Computer-implemented inventions are patentable	<i>"inventions whose implementation involves the use of a computer, a computer network or other programmable apparatus, realised by means of a computer program (i.e. software)"</i>
Needs to have a technical effect	not business or financial
BUT... in USA	"technical effect" requirement is not so rigid (and USA is a large market!)

21

www.iprhelpdesk.eu

(Software code) Copyright ©

Copyrights protects the expression of the method not the method itself	<ul style="list-style-type: none"> • The code as such (source and binary)
Copyright also protects related written materials	<ul style="list-style-type: none"> • Design material • User guides
Comes into existence automatically	<ul style="list-style-type: none"> • so keep good records to prove date of creation.
Lasts at least 50 years	<ul style="list-style-type: none"> • national variations

NB: Not interface information, data formats, ideas or principles.

**More than enough
for software!**

22

www.iprhelpdesk.eu

Use a copyright notice	<ul style="list-style-type: none"> the copyright symbol ©, and/or the words "Copyright"; the publication year; the copyright owner. For example: © 2020 Iambic Innovation Ltd.
On every component	<ul style="list-style-type: none"> package or box the software comes in, if any manual and other written documentation computer disks or other media containing the software (if any), and appropriate computer screens (e.g. the opening screen, status bar, at activation, on the about or credit screen).
In the software code (if made available)	<ul style="list-style-type: none"> As a minimum on the first and last page Preferably on every page, or liberally throughout the code.

23

www.iprhelpdesk.eu

Software patent *OR/AND* Software copyright

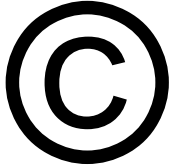

Patent

What it does (regardless of how expressed)

Copyright

What it is (its expression)

Research
Develop
Program
Test
Take to Market

24

Copyright?

A legal right for creators **and** owners of creative, literary and artistic works

- For **owners**: **economic rights**
 - related to **financial gain** from the use of the work
- For **creators(authors)**: **moral rights**
 - to **link them** (or not) with their work

NB: Owners may not be the same as creators

A wide range of works

- Books
- Music
- Paintings
- **Films**
- **Teaching materials**
- **Software code**
- **Databases**
- Technical drawings
- Advertisements
- Maps

25

What are the rights?

The **owner** can **authorise or prohibit** others from using the work without permission (may be €).

- **Reproduction** of the work in various forms (e.g. making copies of your work)
- **Distribution** of copies of the work (e.g. **software**)
- **Public performance** of the work (e.g. music, or a play, in a theatre)
- **Translation** of the work into other languages (including **computer languages or to binary**)
- **Adaptation** of the work (e.g. turning a novel into a movie)

The **creator** can **assert their moral rights** to be named as the author, **or not to be named**

26

How long does the right last?

For a literary, dramatical,
musical or artistic work

- **70 years** from the end of the year in which the last surviving author dies.

For other types of work
(e.g. **software code, data**, etc)

- varies, but usually **less than 70 years**

27

New Copyright Directive 2019/790 in response to developments in ICT

To **increase the availability of works** for people across Europe, creating more favourable conditions for the **distribution of TV and radio programs**

To **modernise the key exceptions** in favour of education, research and preservation of culture, **focusing on digital and cross-border use**

To **create a fair marketplace for online content**, especially for press publications, online platforms and remuneration of authors and performers

The AI Act

 Official Journal
of the European Union

EN
L series

2024/168912.7.2024

REGULATION (EU) 2024/1689 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

of 13 June 2024

The AI Act rules on GPAI apply from 2 August 2025.

laying down harmonised rules on artificial intelligence and amending Regulations (EC) No 300/2008, (EU) No 167/2013, (EU) No 168/2013, (EU) 2018/858, (EU) 2018/1139 and (EU) 2019/2144 and Directives 2014/90/EU, (EU) 2016/797 and (EU) 2020/1828 (Artificial Intelligence Act)

To ensure safe and trustworthy AI, the AI Act puts in place rules for providers of AI based systems, including transparency and copyright-related rules

30

The AI Act

Generative AI, like ChatGPT, will have to comply with transparency requirements and EU copyright law

The AI Act rules on GPAI apply from 2 August 2025

Disclosing that the content was generated by AI

Designing the model to prevent it from generating illegal content

Publishing summaries of copyrighted data used for training

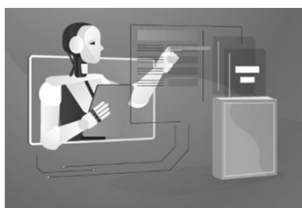

Content generated with the help of AI (images, audio, video files, deepfakes, etc) – must be clearly labelled as AI generated so users are aware when they come across the content

31

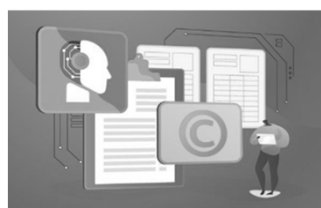

Code of Practice for General-Purpose AI Models

THE DEVELOPMENT OF
GENERATIVE ARTIFICIAL INTELLIGENCE
FROM A COPYRIGHT PERSPECTIVE

May 2025

IP Helpdesk Webinars

- “IP and Artificial Intelligence”
- “IP and Artificial Intelligence – Advanced”
- “The AI Act”

EU IPO Conference on
COPYRIGHT

Navigating Copyright Together in an
Evolving Digital Landscape

EU IPO

20 - 21 November 2025 in EU IPO, Alicante (Spain).

33

www.iprhelpdesk.eu

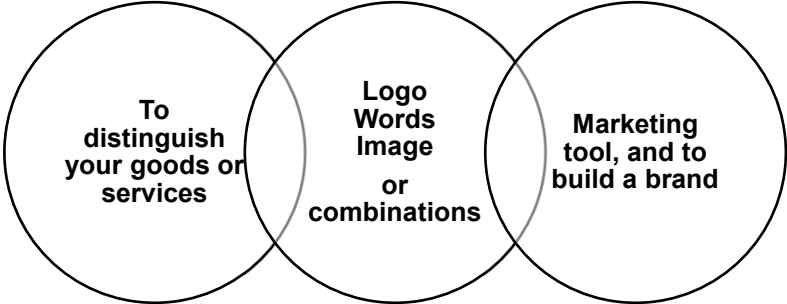

Database Rights

- **Copyright** protects the **contents**
- **Database right** protects the **collection** if there has been a "substantial investment" in obtaining, verifying or presenting the contents of the database.

34

www.iprhelpdesk.eu

Trademarks

To distinguish your goods or services

Logo Words Image or combinations

Marketing tool, and to build a brand

“Patents dominate in Telecommunication and Hardware, but trademarks and copyright dominate in software”

JRC Report, “IP and Innovation in ICT”, 2015

35

www.iprhelpdesk.eu

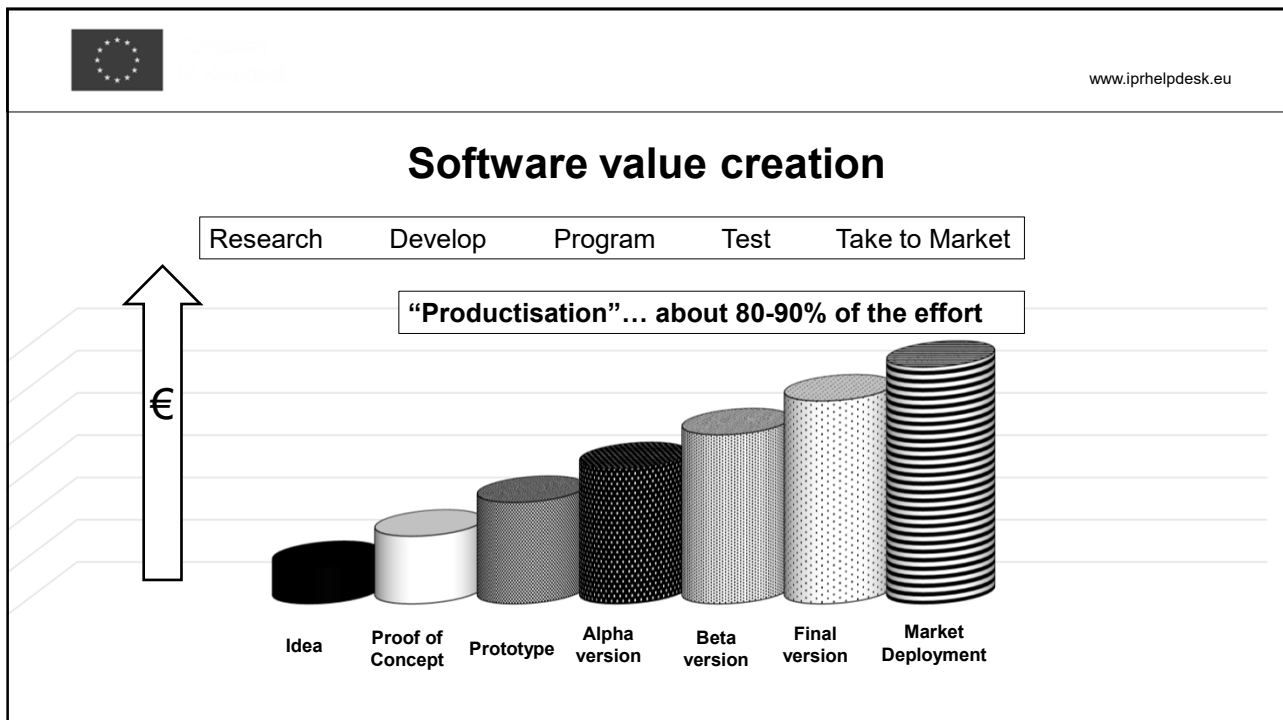

Technological Protection Measures (TPMs)

To protect software copyrighted works	<ul style="list-style-type: none">• for example, through encryption
Any technology (software or hardware) which restricts access	<ul style="list-style-type: none">• a password to gain access to a website containing scientific papers• to a chip in a games console, which only allows games to run in a given location• Security dongle• Authorisation/Activation code• Etc
Stand alone in law	<ul style="list-style-type: none">• it is an offence to infringe, in addition to any copyright infringement that occurs though by-passing the TPM

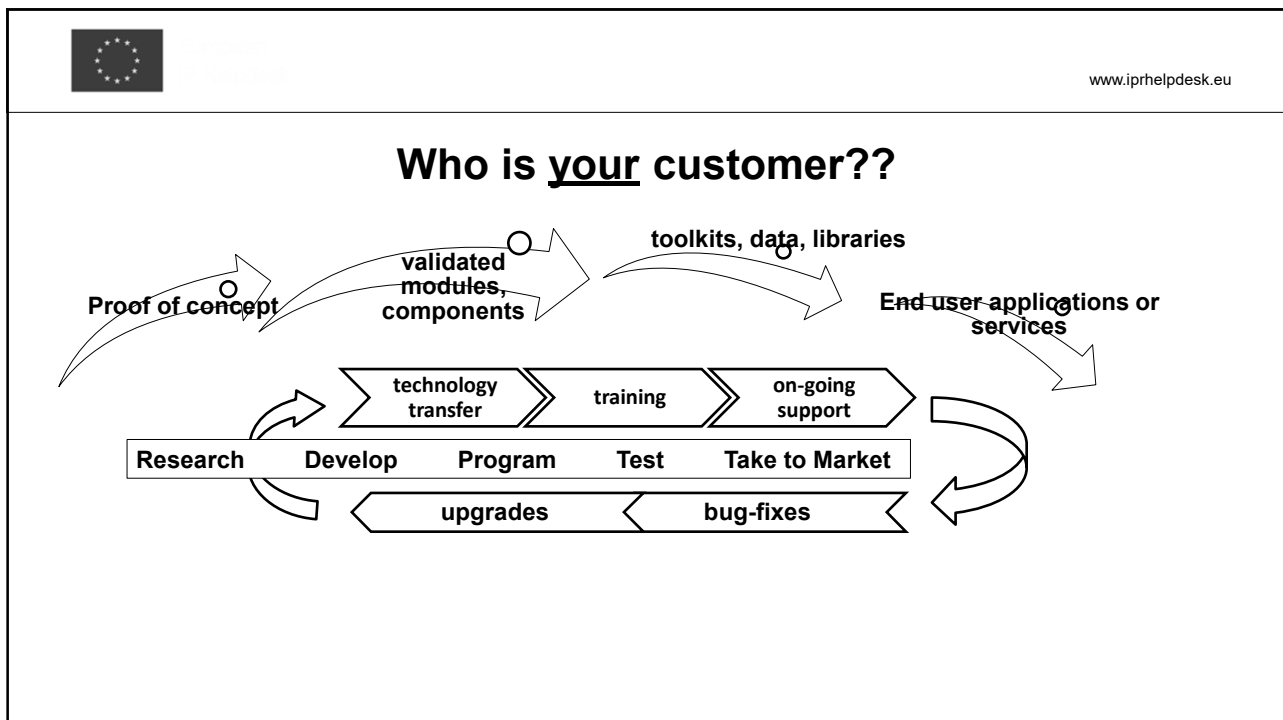

36

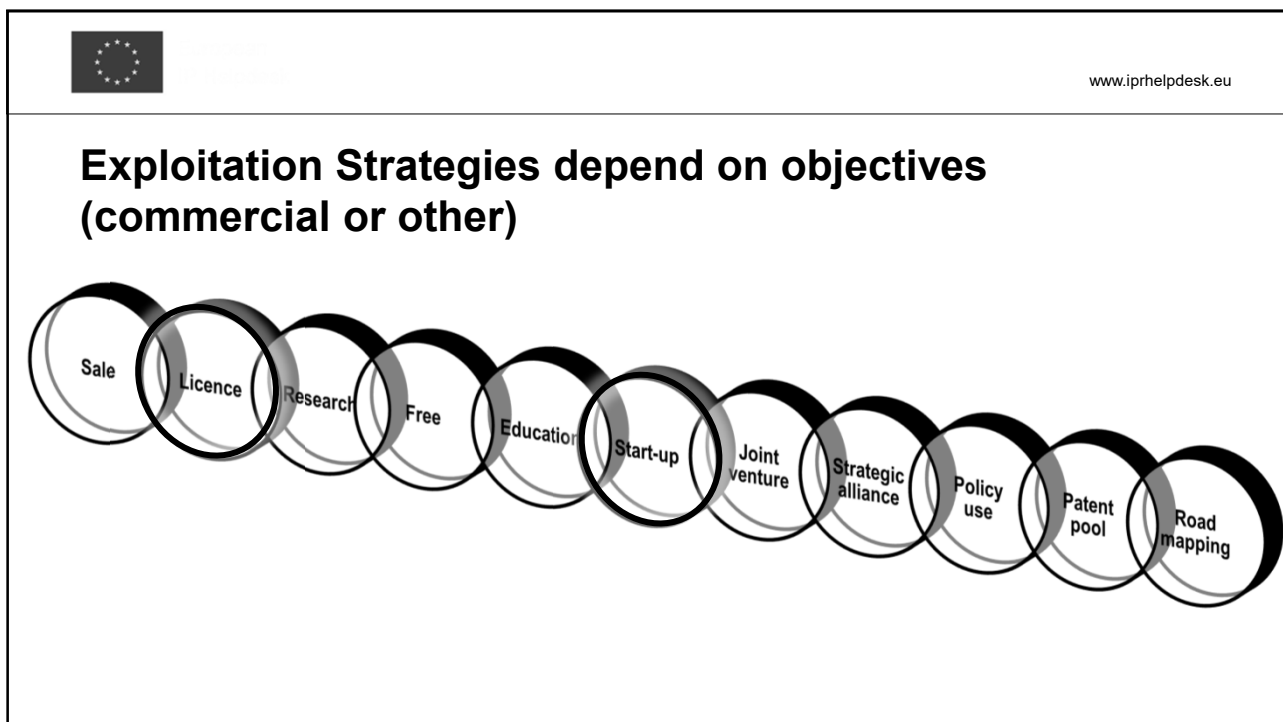

37

38

39

40

Licence or New Company?

Licensee has expertise and resource

Can address different fields of use and geographical areas

Established markets & suppliers

Evolutionary/incremental technology

The IP fits a gap in someone else's portfolio

Low financial commitment – less risk

Early returns – may grow over time

New Company must acquire expertise and resource

Needs a critical mass of expertise and a committed and enthusiastic team

New markets for new suppliers

Revolutionary or platform technology

Delivers a unique business advantage

Needs capital - more risk

Returns take longer – but could be large

41

VC funds investing heavily in favour of Software

Drive for **capital growth** rather than profitability

Investors don't wait around....

ICT has **rapid growth** potential

New paradigms, low capital investment and rapid growth

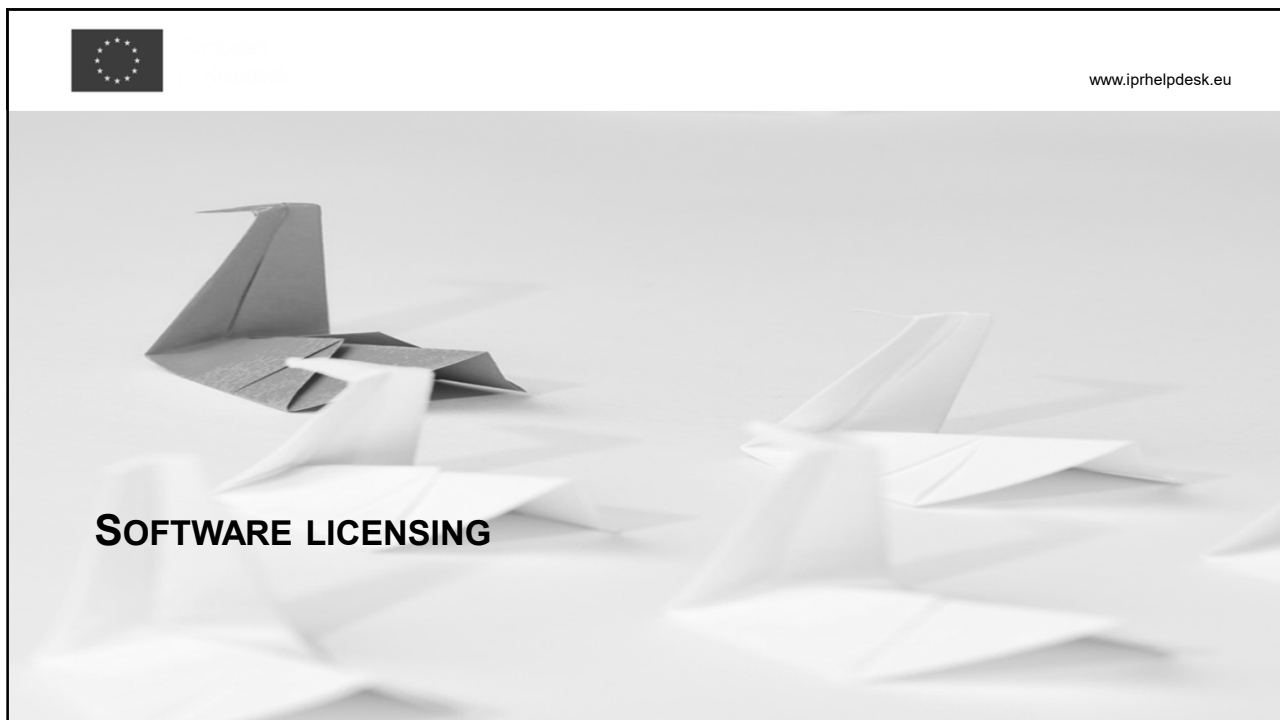

make **ICT start-ups attractive** for investors

US VC deal count by sector

	2022	2023	2024
Software	7378	5757	5560
Pharma & Biotech	1149	1030	940

42

43

www.iprhelpdesk.eu

Licensing (in general)

Granting right to use
Granting the right to use the **protected IP** under agreed terms and conditions

- Field of use
- Geographic territory
- To validate not sell
- Subject to

Can an SME reach all market sectors and territories?

European IP Helpdesk Bulletin No.1 - IP Licensing

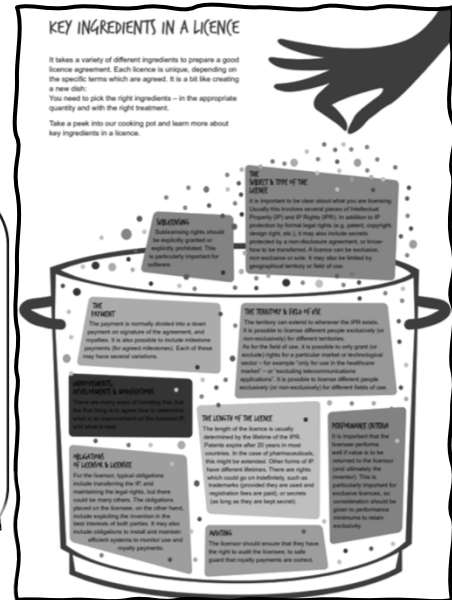

European IP Helpdesk Bulletin / June 2019: IP Licensing - European Commission

44

e.g. licence to end users

- **For a fee or free**
- **Individual user** (end user licence)..
- **Multiple users** may install the product under licence, but only one is allowed to use the software at a given time.
- For **specific hardware** (node licence)
- **Multiple licenses** for multiple computers (or multiple users)
- **Site licence:** geographical, or organisational
- **Floating (network) licence.** Can be installed on many computers, but number of licenses purchased determines the number of concurrent users.
- etc

BEWARE of bundling!

45

Software is never finished!

- **Bug** fixes
- **Upgrades**: Improvements, operating system, new add-on products, etc
- Ongoing or limited **support**

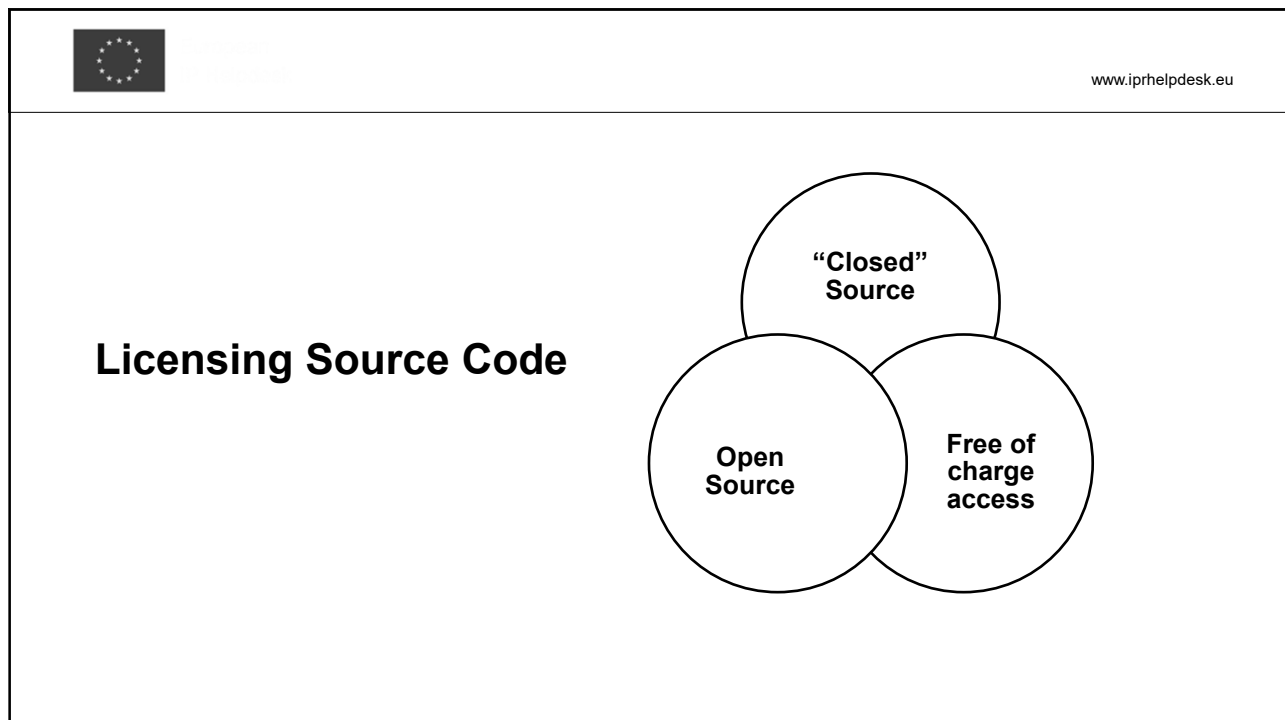

Depends on revenue models

- **Free or Fee**
- **Subscription, one-off payment, as needed** etc...
- Options for first refusal
- **Ads or Ad-free** options

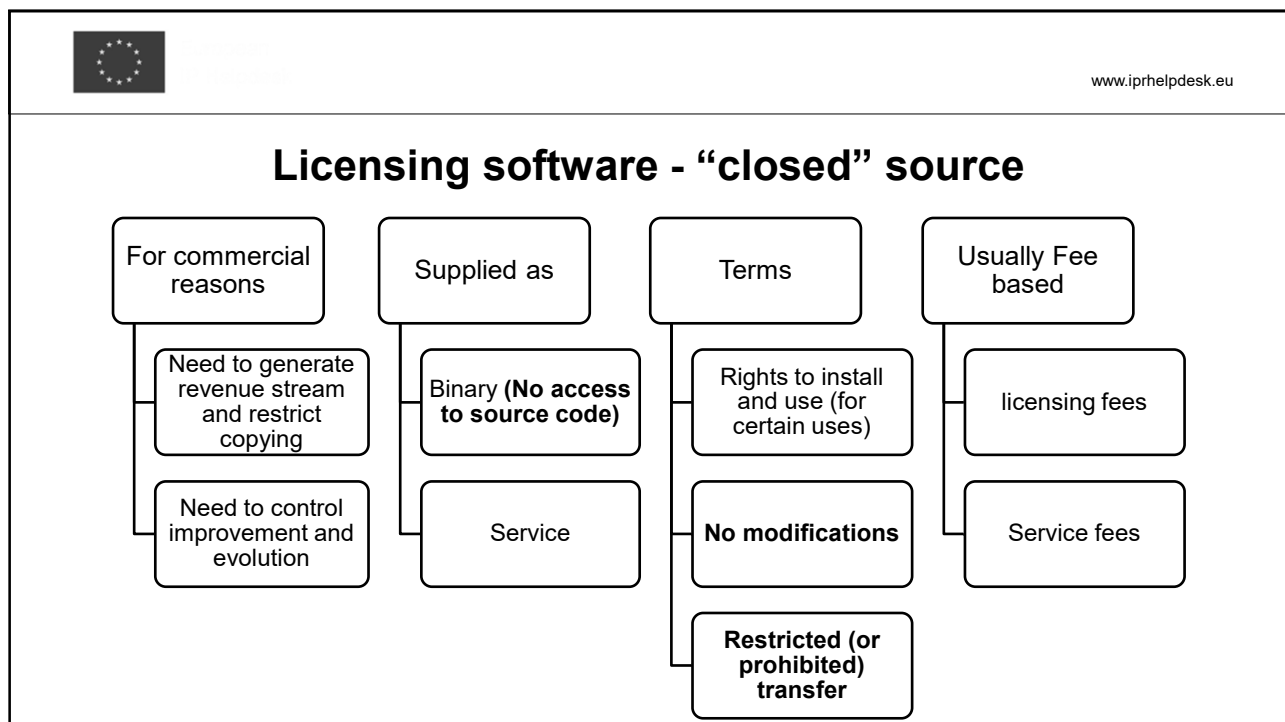

Many and varied options in a software licence agreement

- Choice depends on position in value chain, sector, application and business model

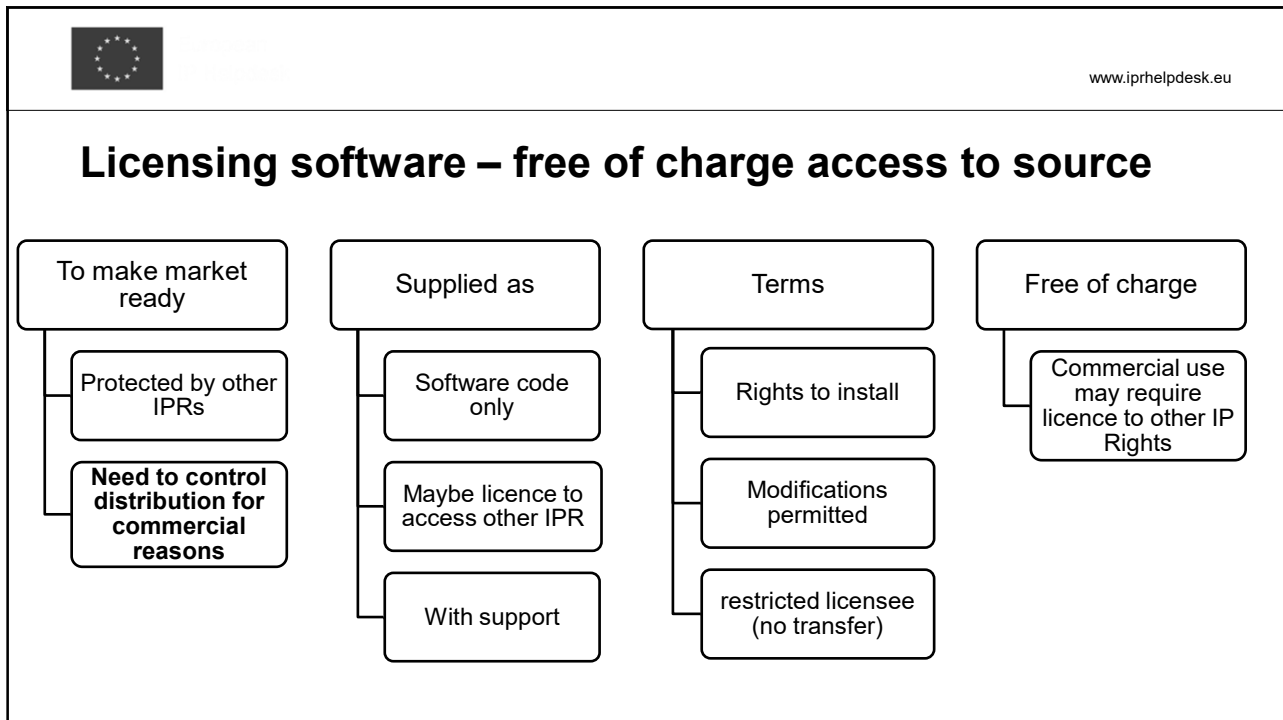

46

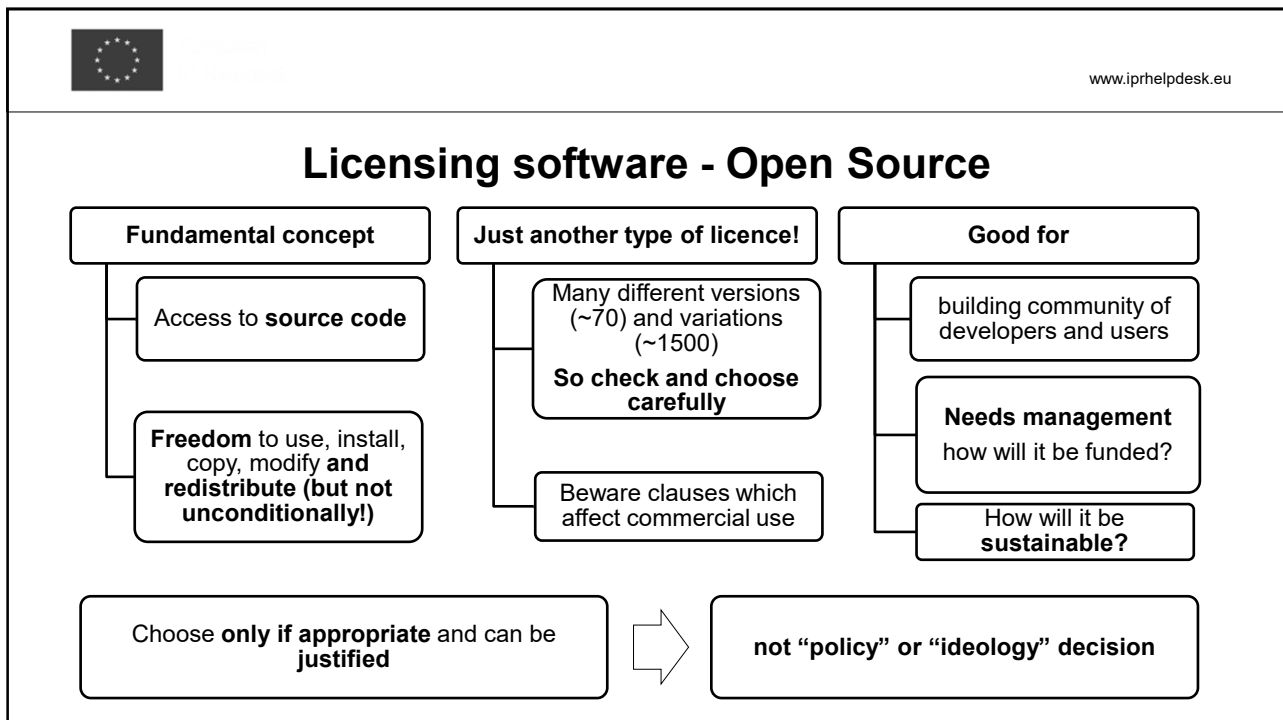

47

48

49

50

Two main types of Open Source licence

Permissive Licences

(e.g. MIT, Apache, BSD...)

- Do not control how modified code is licensed
- Modifications can be released under any licence, open source or not
- Must include attribution, permission and copyright notices

Copyleft Licences

(e.g. GPL, MPL, EUPL...)

- Additional conditions about derivative works
- Same rights included in derivative works (**Strong**) - GPL
- No restrictions on derivative works, but original code must have same rights (**Weak**) – EUPL, LGPL, MPL

51

European Union Public Licence

Weak copyleft

Open source licence in **all EU official languages**
(OSI certified 2009)

Compliant with EU law

Interoperable and compatible with other licences

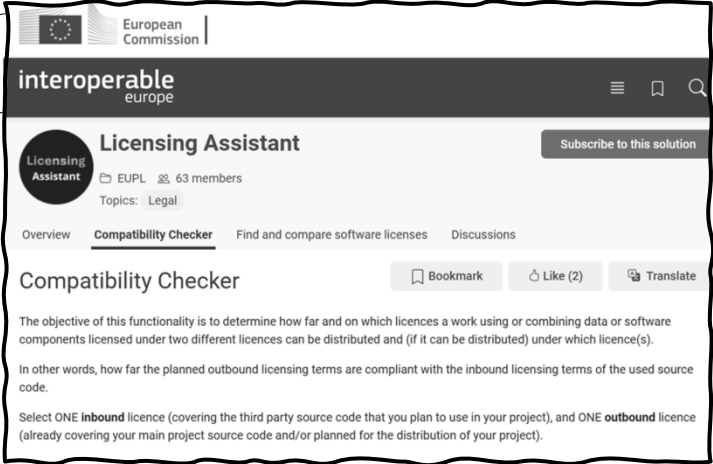

[EUPL | Interoperable Europe Portal](#)

52

www.iprhelpdesk.eu

Compatibility Checker

How compliant are:
the (planned) outbound
licensing terms
with the
inbound licensing terms

[Compatibility Checker](#) | [Interoperable Europe Portal](#)

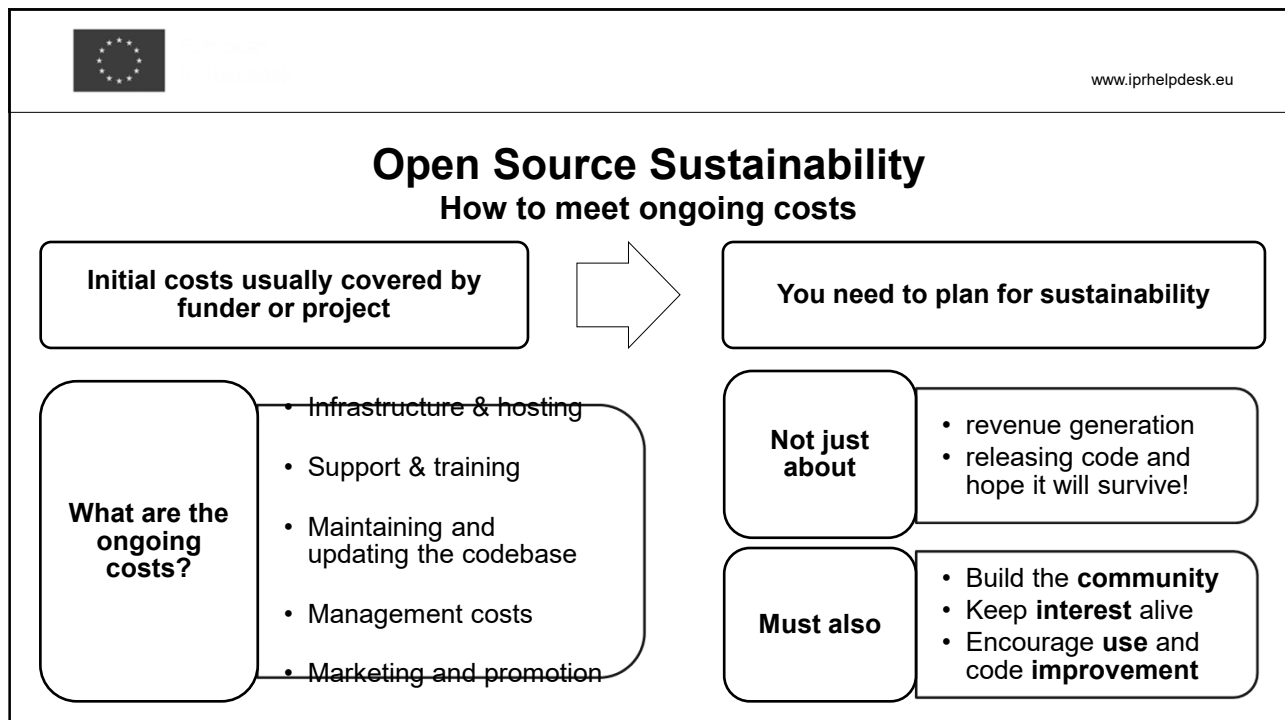

53

www.iprhelpdesk.eu

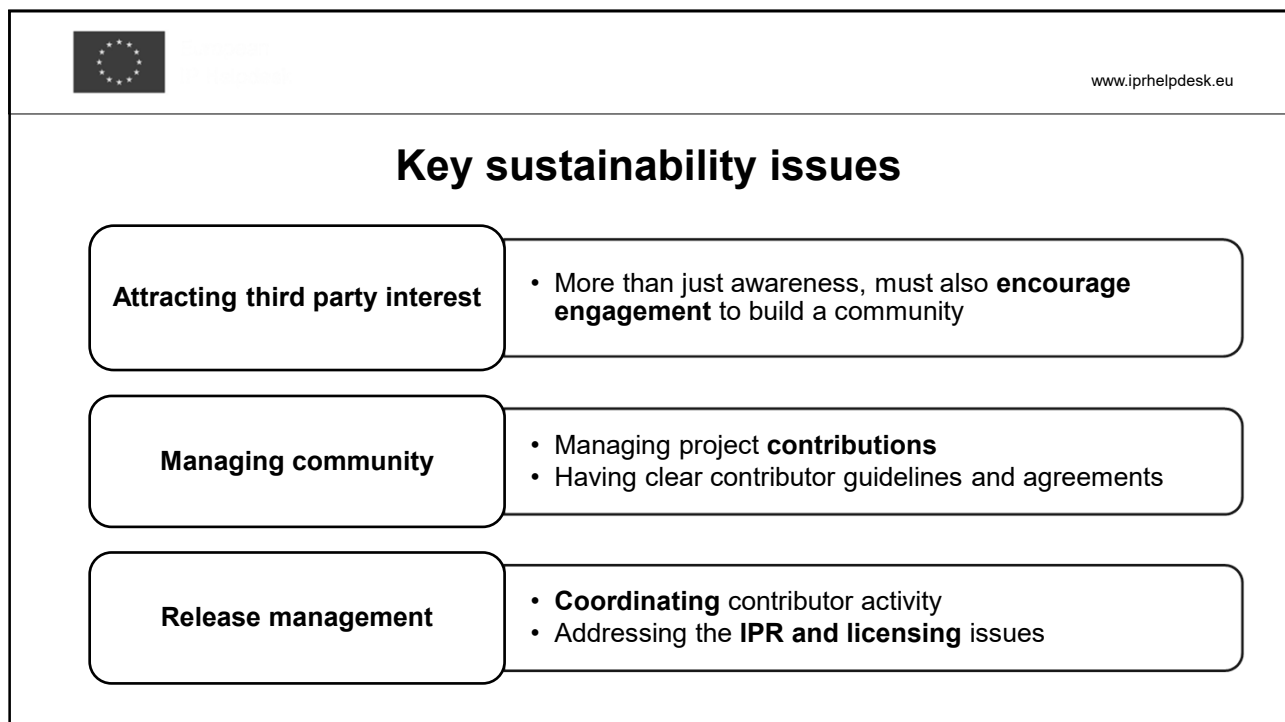

Managing Open Source Projects

Someone must manage and sustain	<ul style="list-style-type: none">• Quality and validation• New releases into community• Build and sustain the community
Beware too many “forks”	<ul style="list-style-type: none">• Detrimental to building critical mass in the community, and “brand” identity and commercial success
Must provide source for free	<ul style="list-style-type: none">• Can charge for executable, added value services or products (e.g. training or toolkits)
Added value services and products may be supplied	<ul style="list-style-type: none">• Software freely available under OSS licence• Support contract or consultancy services may be purchased from owner or third parties

54

55

56

Company types using Open Source software?

hardware companies

- To increase the market for their hardware (e.g. printers, phones, white “smart” goods, etc)

software companies

- In their own products

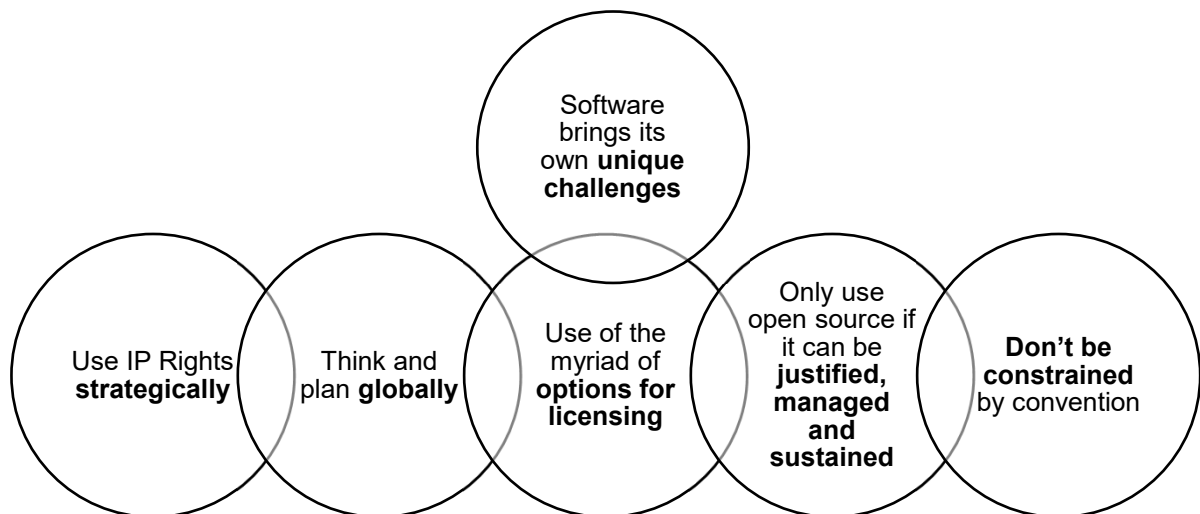

services companies

- To build a market for their services (e.g. support, training, customisation, etc.)

57

Summary

58

Presentation produced by Dr. Eugene Sweeney, Iambic Innovation Ltd.

DISCLAIMER

The European IP Helpdesk provides free-of-charge first-line support on IP-related issues aiming to help current and potential beneficiaries of EU-funded projects, as well as EU SMEs, manage their Intellectual Property assets.

The European IP Helpdesk is managed by the European Commission's Executive Agency for Small and Medium-sized Enterprises (EASME), with policy guidance provided by the European Commission's Directorate-General for Internal Market, Industry, Entrepreneurship and SMEs (DG Grow).

The information provided by the European Union IP Helpdesk is not of a legal or advisory nature and no responsibility is accepted for the results of any actions made on its basis. Moreover, it cannot be considered as the official position of EASME or the European Commission. Neither EASME nor the European Commission nor any person acting on behalf of EASME or of the European Commission is responsible for the use which might be made of this information.
