Преимущества Гаагской системы

A pair of hands is gently holding a small, colorful globe of the Earth. The globe shows continents in green and yellow and oceans in blue. The hands are positioned as if cradling the globe. The background is a soft, out-of-focus brown. Overlaid on the left side of the image is the text 'Глобальная система' in a large, white, sans-serif font.

Глобальная система

Получайте защиту в 99 странах.

Глобальная система

Централизованная

A long wooden pier extends from the foreground into the ocean. The pier has a white lattice railing and is supported by wooden posts. Along the pier, there are several pavilions with red roofs and white walls. The sky is a deep blue, and the water is dark with white foam from the waves. The sun is low on the horizon, creating a warm glow.

Легко управляйте своей
регистрацией напрямую через ВОИС.

Warning

It is a requirement under the law of the United States of America that, for designs created in the United States of America, the applicant first obtains a license from the United States Patent and Trademark Office [USPTO] before filing outside of the United States of America.

It is a requirement under the law of the Russian Federation that designs created in the Russian Federation by Russian legal entities or nationals are subject to a security clearance procedure by the Federal Service for Intellectual Property (ROSPATENT) to ensure that the designs do not contain state secrets.

When you create a new application, you have three options:

Create an application from scratch

By default, the option is set to "New application". By simply leaving that option selected and then clicking "Confirm", you will create a new international application from scratch.

Несвязанные образцы

Образцы могут считаться не соответствующими требованию единства образцов.

Образцы могут считаться несхожими друг с другом, и потребуется указать основной образец и связанные образцы.

Отсутствие оплаты

Рассмотрение заявки начнётся только после того, как ВОИС получит как минимум основную пошлину по заявке.

Платёж по банковскому переводу может не содержать необходимых ссылочных данных..., что может помешать привязать платёж к заявке.
