

European IP Helpdesk

Stay ahead of the innovation game.

European IP Helpdesk Services

European IP Helpdesk

- Service initiative of the European Commission
- Addressing **current and potential beneficiaries of EU-funded projects, researchers and EU SMEs**
- Free-of-charge first-line support on intellectual property (IP)
- Hands-on IP and innovation management support
- International pool of IP experts from various thematic fields
- Unique cooperation scheme with the Enterprise Europe Network: 44 ambassadors from 27 EU countries

The EC IP Helpdesks

Roadmap

- **WHY BOTHER COLLABORATING**
- **IDENTIFYING AND LEVERAGING INTELLECTUAL ASSETS**
- **DEVELOPING SHARED STRATEGIES**
- **MANAGING AND SHARING INTELLECTUAL ASSETS**

2

Why collaborate?

All companies need to innovate (or die!)

SMEs have limited resources or capacity

Partnering with others can provide access to new assets and opportunities

3

Where to collaborate?

What are the **gaps** or in the product or service offerings?

How could the product or service be **improved**?

Are there **new products or services** which could help the company?

Working with others can help

4

Can you get more value from your IP assets?

IP which is not yet being used, but could be further developed with others?

Core IP which could be built on to develop new innovations?

Applications of IP in other sectors or fields of use?

Sharing IP can help

5

Where are new opportunities?

New geographic territories not yet addressed

New fields of use

New market sectors

Working with others can help to access these

6

www.iprhelpdesk.eu

Many types of business collaboration

Research
Supply Chain
IP licensing in or out
IP Cross-licensing
Joint Venture
Start up with shared equity
Shared marketing, different markets (by fields of use or territory)
etc

Align individual and shared commercial strategies

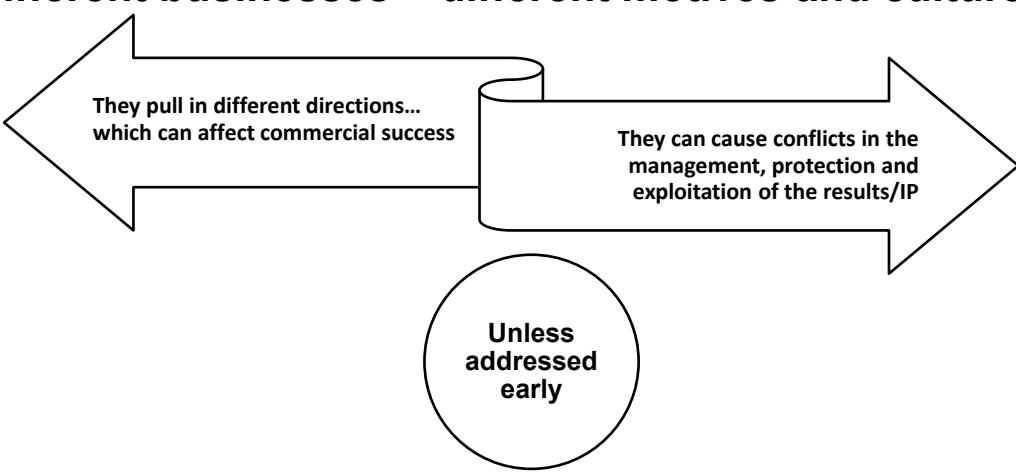

Agree strategies for managing, protecting and exploiting the IP

7

www.iprhelpdesk.eu

Different businesses = different motives and cultures

They pull in different directions... which can affect commercial success

They can cause conflicts in the management, protection and exploitation of the results/IP

Unless addressed early

8

www.iprhelpdesk.eu

COLLABORATION
=
GIVE & TAKE
=
“SHARING” ASSETS

9

www.iprhelpdesk.eu

Intellectual Assets

Products of the mind

Assets which can be traded

The KEY assets in any company
Company USPs

Collaboration Inputs & Outputs

- Inventions*
- Software code*
- New methods*
- Manuals/Reports*
- Designs (aesthetic/functional)*
- Databases*
- Works of art*
- Music*
- Videos*
- Books*
- Roadmaps*
- etc*

10

www.iprhelpdesk.eu

Intellectual Property Right (IPR)

Patents	Some legal rights come into existence automatically
Copyright	Some need registration
Design Rights	Confidentiality Agreements (Know-how)
Database Rights	Secrets (Trade Secrets)
Trade marks	Time limited rights
Plant Breeders Rights	National rights
Utility Models/petty patents	
Plant varieties	
etc	

11

www.iprhelpdesk.eu

What is the deal?

legal right to prevent others using their creation (without agreement)	In return for	disclosing details
commercial purposes (only)		so others can develop new innovations
for a limited period		

12

www.iprhelpdesk.eu

Who benefits?

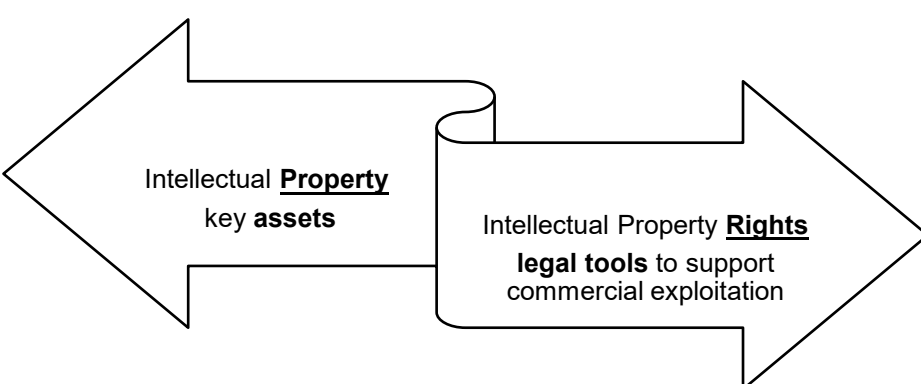

The state by avoiding secrecy	<ul style="list-style-type: none">• Improves innovation capacity, stimulates innovation, enriches society
The creator by being able to prevent unauthorised commercial use	<ul style="list-style-type: none">• Unless they come to an agreement (which may be financial)
Investors (time, money, facilities, etc) from the limited monopoly	<ul style="list-style-type: none">• To get a return on investment

13

www.iprhelpdesk.eu

Don't confuse IA, IP and IPR

Intellectual **Property**
key **assets**

Intellectual Property **Rights**
legal tools to support
commercial exploitation

14

www.iprhelpdesk.eu

IP Protection is a strategic commercial decision

Are there are commercial opportunities? → Would IP protection support the business? → Benefits greater than costs? → If so, invest!

Assessment, protection and exploitation must be considered together

15

www.iprhelpdesk.eu

Many ways to protect

Copyright, Design rights, Utility models, Database rights, Trademarks, Trade secrets, Intangible assets (people, know-how), Tangible assets (test facilities)

Patents dominate Telecomms and Hardware

trademarks and copyright dominate Software & Services

JRC Report, "IP and Innovation in ICT", 2015

16

Ensure all the relevant assets are identified
(as well as all the contributors)

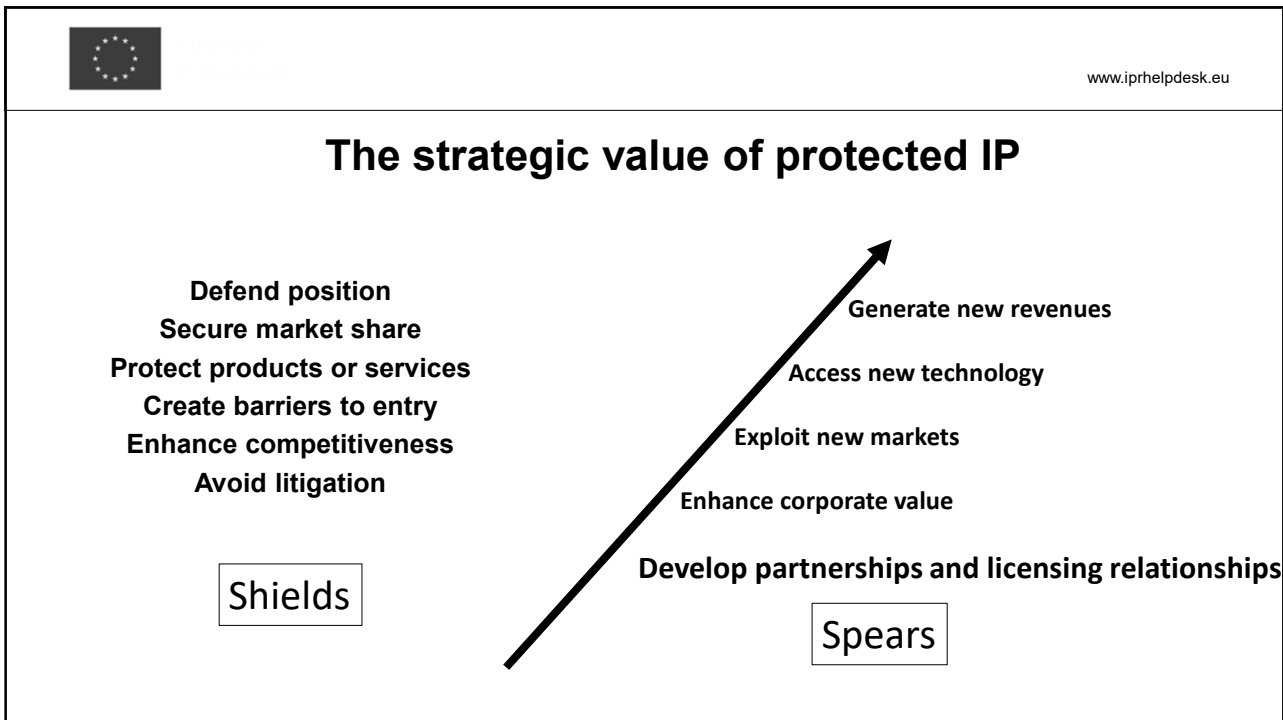

Patentable IP	Copyrightable IP	Designs (design rights)	Trade secrets, etc	Intangible assets
<ul style="list-style-type: none">• Computer implemented inventions (software!)• Processes• Products• Apparatus	<ul style="list-style-type: none">• Software code• Reports• Engineering drawings• Manufacturing and user guides	<ul style="list-style-type: none">• Functional• Eye-appeal	<ul style="list-style-type: none">• Formulas• Methods• etc	<ul style="list-style-type: none">• People• Know how (e.g. best way to implement)• Potential Brand value (supported by Trade or Service Marks)

17

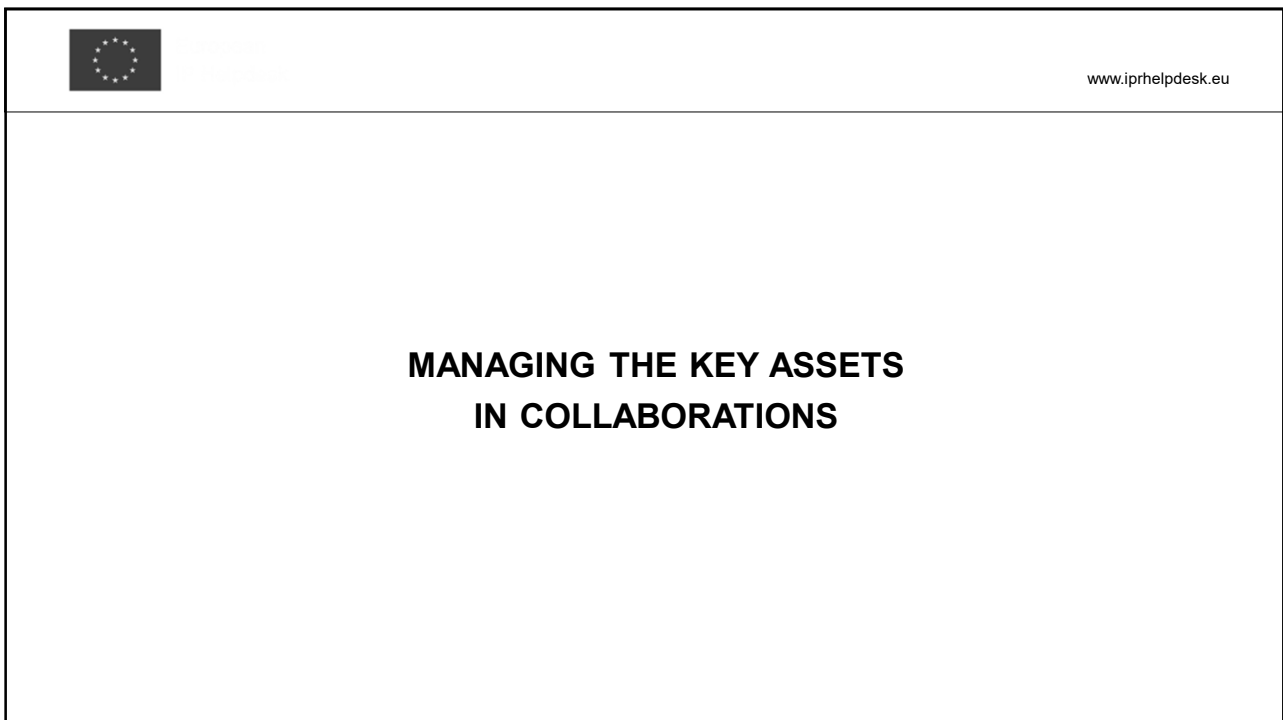

**THE STRATEGIC USE OF
INTELLECTUAL ASSETS IN
BUSINESS COLLABORATIONS**

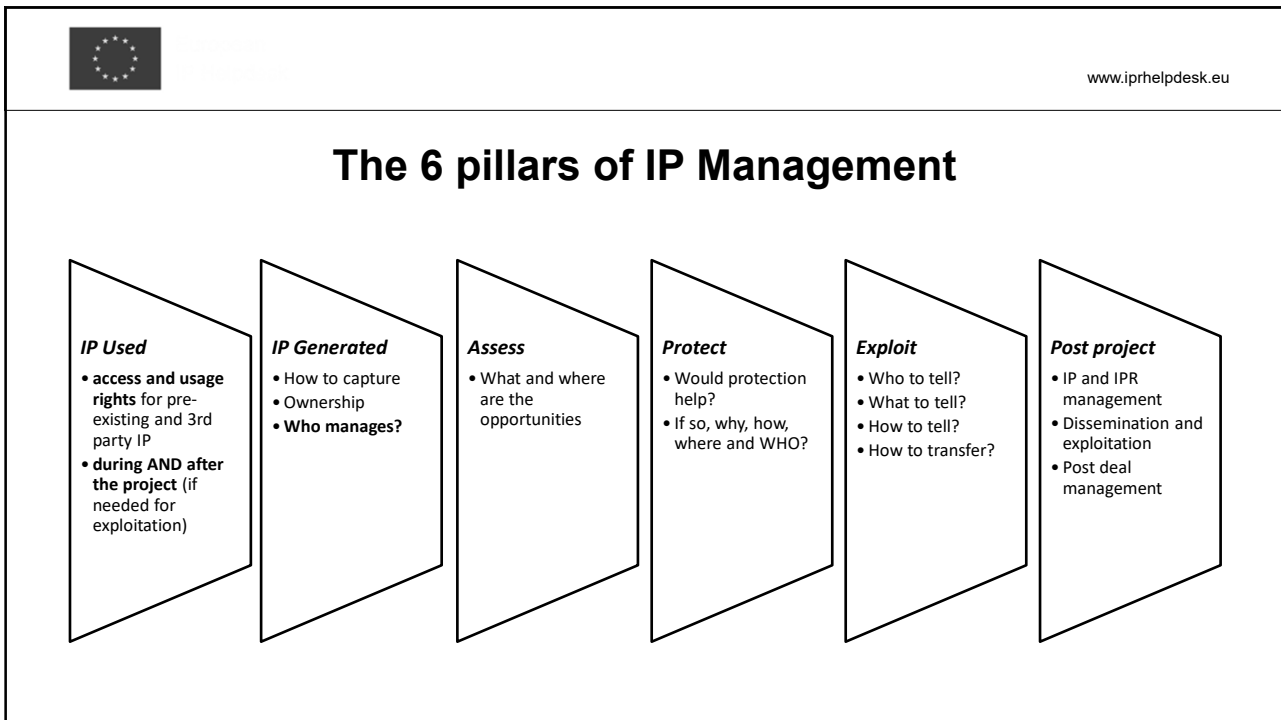

18

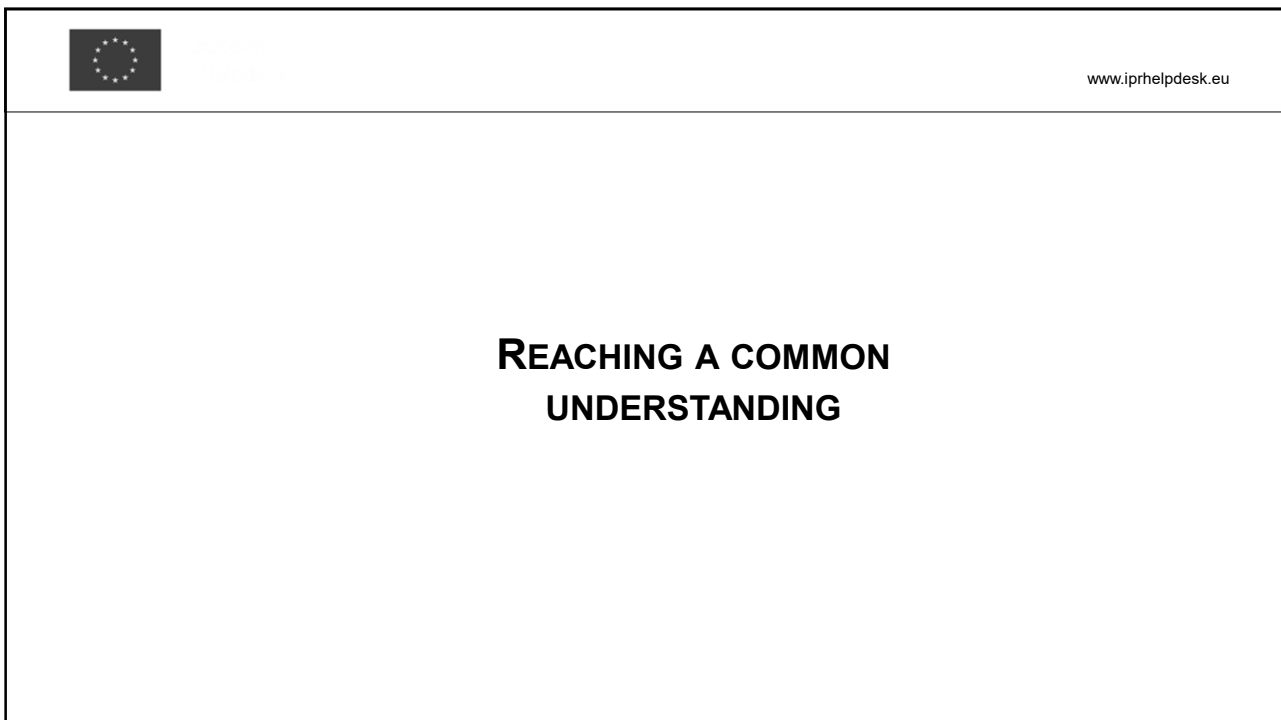

19

20

21

22

What are the collaboration opportunities?

The **opportunities** for **all** the collaborators

Who will address which opportunities (individually or collaboratively)

How the collaboration affects **competitive positioning**

What are the **gaps** in knowledge, competence and assets which the collaboration can reduce

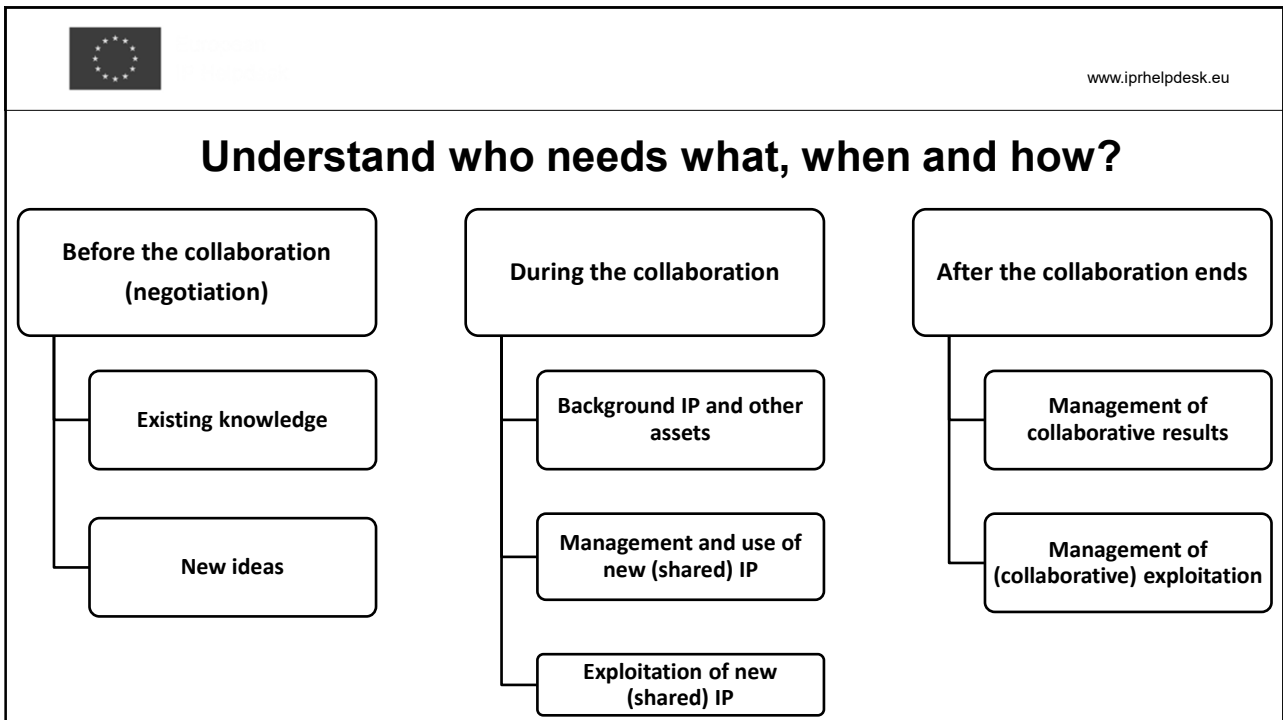

23

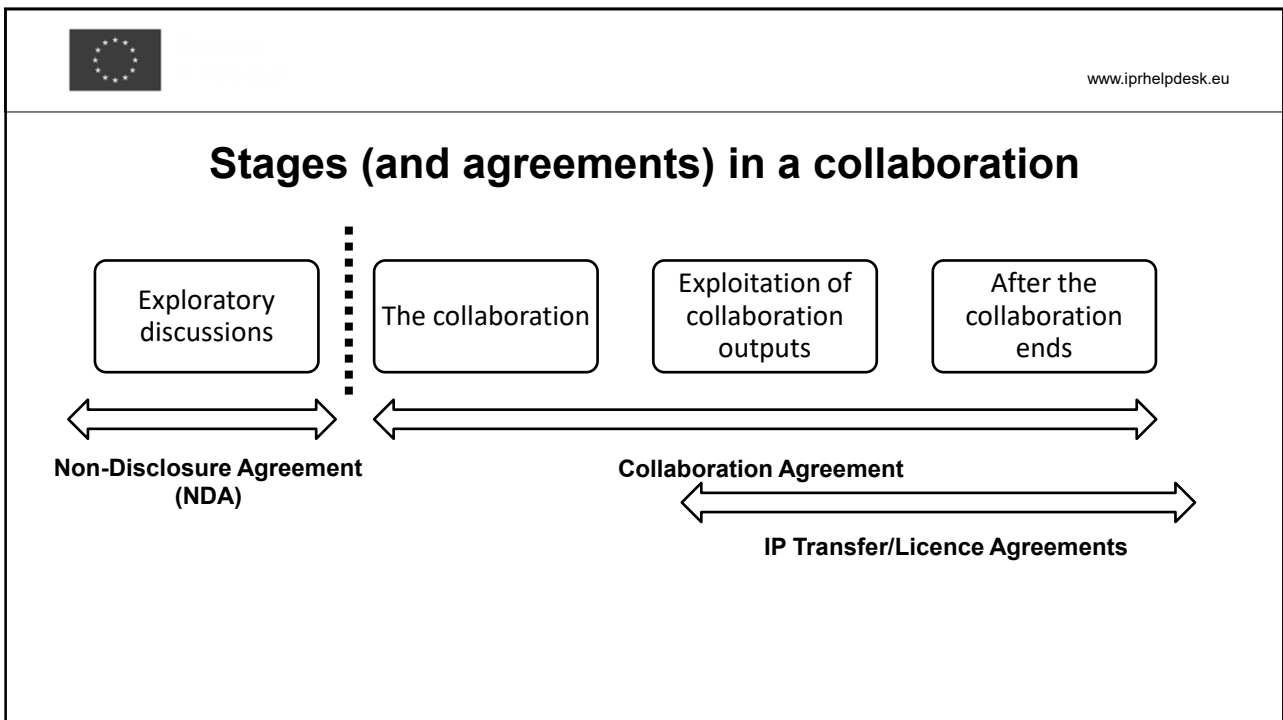

Needs, Contributions, Benefits, Risks Matrix

Partner	P1	P2
Needs	What are the needs/wants/challenges you want to address?	
Contributions		What do you plan to contribute to the collaboration?
Benefits	What do you want to get out of the collaboration?	
Risks		What are your main concerns or potential risks which might reduce your expected benefits?

24

25

26

Exploratory Discussions

Protected background

- Make collaborators aware of any existing IP Rights
- Clarify use during and **after collaboration** (research or commercial)

Unprotected, confidential or secret background

- only on a “**need to know**” basis with **NDA**
- “**Black box**”, or “**Service**” (e.g. **SaaS** rather than software code)
- Mark as “**confidential**” and **minute** all discussions

New ideas

- Discuss under an **NDA**
- Disclose the potential of the ideas, but not the “**how**” (unless agreed)

27

Non-Disclosure Agreements

Always have an NDA prior to any discussion related to confidential information (trade secrets, know-how or new ideas)

An NDA **only covers disclosure, NOT commercial transactions.**

Make the **purpose of the disclosure** clear in the NDA

Do not use an NDA beyond exploratory discussions

Confidentiality and trade secret **laws may differ outside Europe**, so ensure NDA serves its purpose – and is “water tight”

28

During the collaboration

Clear management responsibilities, structures and procedures for:

- **Accessing** existing IP
- **Capturing, assessing**, and agreeing strategies for **protecting** new IP
- Agreeing terms of **joint ownership**, and its management and exploitation
- **Implementing the exploitation** strategies

29

Capturing the collaboration outputs

Which partners contributed (and what) - to determine owners

Other contributors (e.g. students, advisory board members, etc)

Any other external funding or facilities used?

Any relevant confidentiality agreements

Any publications or disclosures already made?

What other IP (3rd party or background) will be needed to use IP?

30

Ownership – beware!

Default position without a written agreement (variations by IP and in national law)

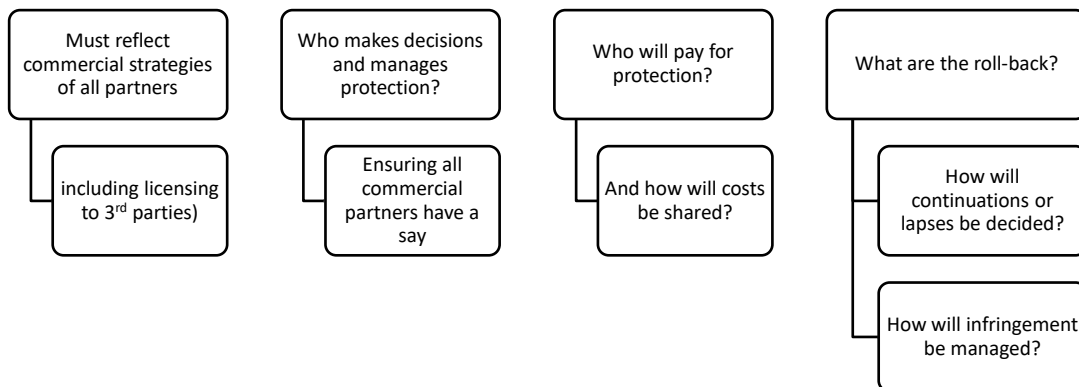

each joint owner owns an undivided interest in the whole work.	• It doesn't matter who contributed most
each has the right to exploit without the other's permission	• but must pay the other joint owners equal shares of earnings
No right to transfer or grant someone else an exclusive license	• Without permission of other joint-owners
If case of infringement , one joint-owner can sue the infringer without consent or involvement of the other(s)	• But any damages or compensation recovered will need to be shared

It is always best to have a written agreement!
Processes to agree relative contributions and to take decision

31

Assessing and Protecting the Results

32

Agree exploitation of the collaboration outputs

Agree exploitation strategies and pathways and responsibilities

- **Who exploits** what, where and how?
- How, and **under what terms**, is IP made available for commercial or other use?
- Rights of first refusal for **upgrades/improvement**?
- Who will manage **infringement, litigation**?
- Post-deal **auditing**?

33

Different routes to value creation

34

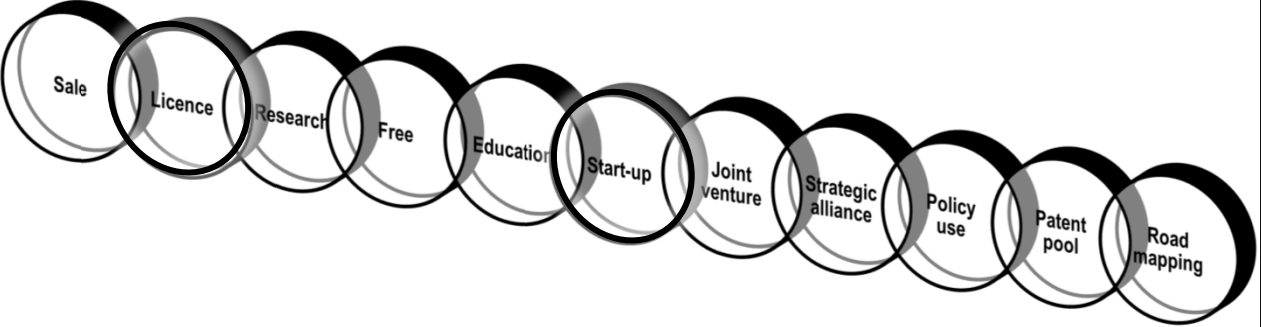

www.iprhelpdesk.eu

Providing Access to Intellectual Assets

Like physical property, knowledge is a **valuable asset** which can be **traded** – bought, sold or leased, given away free, used in JV's, as collateral, etc...

But, **many more ways of extracting value...**

35

www.iprhelpdesk.eu

Licence	or	New Venture?
Licensee has expertise and resource	New Company must acquire expertise and resource	Needs a critical mass of expertise and a committed and enthusiastic team
Can address different fields of use and geographical areas	New markets for new suppliers	Revolutionary or platform technology
Established markets & suppliers	Delivers a unique business advantage	Needs capital - more risk
Evolutionary/incremental technology	Returns take longer – but could be large	
The IP fits a gap in someone else's portfolio		
Low financial commitment – less risk		
Early returns – may grow over time		

36

www.iprhelpdesk.eu

Licensing (in general)

Granting right to use
Granting the right to use the **protected IP** under agreed terms and conditions

- Field of use
- Geographic territory
- To validate not sell
- Subject to conditions

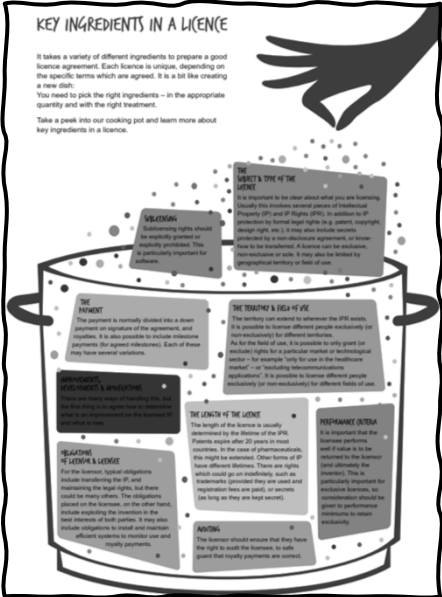

European IP Helpdesk Bulletin No.1 - IP Licensing

<https://op.europa.eu/oportal-service/download-handler?identifier=3ae24438-9c73-11e9-9d01-01aa75ed71a1&format=pdf&language=en&productionSystem=cellar&part=>

www.iprhelpdesk.eu

Every clause in a licence agreement is a negotiating point

 www.iprhelpdesk.eu

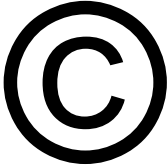

SOFTWARE LICENSING

39

 www.iprhelpdesk.eu

Software patent *OR/AND* Software copyright

<p>Patent</p> <p>What it <u>does</u> (regardless of how expressed)</p> 	<p>Copyright</p> <p>What it <u>is</u> (its expression)</p> 
---	---

40

Licensing Source Code Copyright

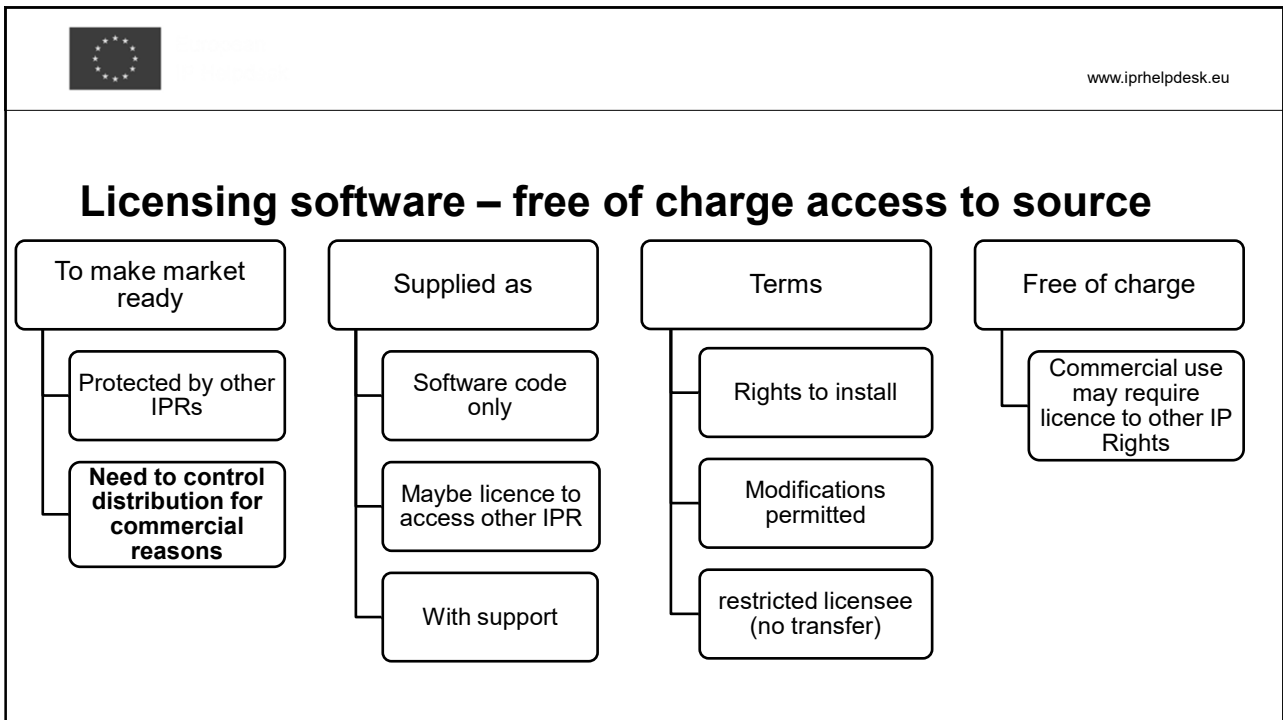

41

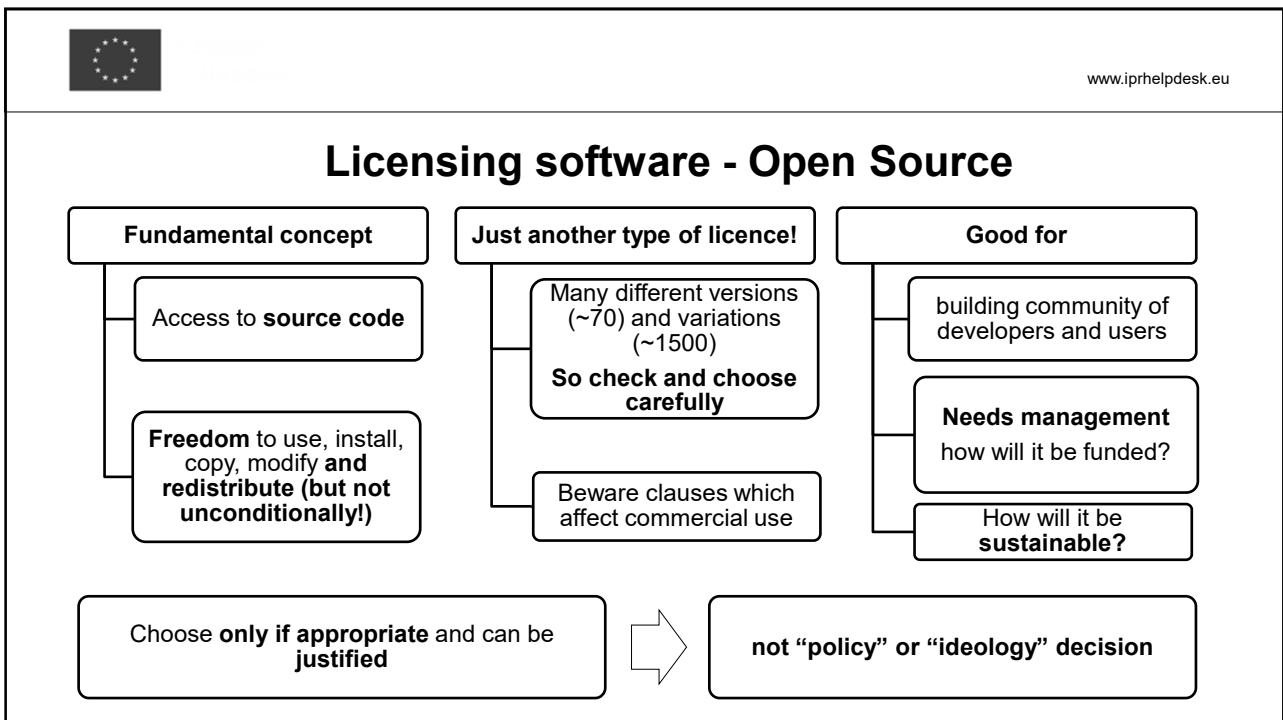

Licensing software - “closed” source

42

43

44

www.iprhelpdesk.eu

Two main types of Open Source licence

Permissive Licences (e.g. MIT, Apache, BSD...)	Copyleft Licences (e.g. GPL, MPL, EUPL...)
<ul style="list-style-type: none">Do not control how modified code is licensedModifications can be released under any licence, open source or notMust include attribution, permission and copyright notices	<ul style="list-style-type: none">Additional conditions about derivative worksSame rights included in derivative works (Strong) - GPLNo restrictions on derivative works, but original code must have same rights (Weak) – EUPL, LGPL, MPL

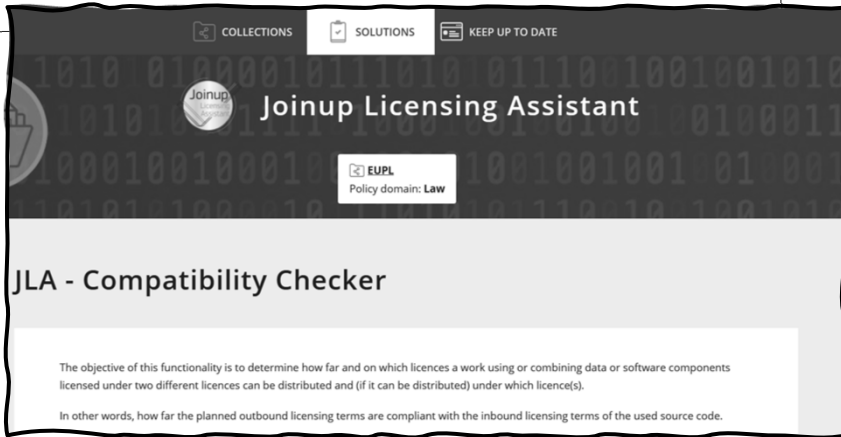

45

www.iprhelpdesk.eu

JLA - Compatibility Checker

How compatible are:
the (planned) outbound
licensing terms
with the
inbound licensing terms

<https://joinup.ec.europa.eu/collection/eupl/solution/joinup-licensing-assistant/jla-compatibility-checker>

46

**THE END OF THE
COLLABORATION
(IS NOT THE END OF THE IP!)**

47

Agree what happens after the collaboration ends

Terms of access and use of IP post-collaboration

Ongoing management of jointly owned IP and its protection

Who will **manage** and **monitor existing licences**, and **derivative works** including auditing

How will **infringement and litigation** be managed?

48

More Help... **“Knowledge Valorisation in R&I Collaborations”

The page features the European Union flag in the top-left corner and the website address "www.iprhelpdesk.eu" in the top-right corner. The main text is as follows:

Presentation produced by Dr. Eugene Sweeney, Iambic Innovation Ltd. April 2023

DISCLAIMER

The European IP Helpdesk provides free-of-charge first-line support on IP-related issues aiming to help current and potential beneficiaries of EU-funded projects, as well as EU SMEs, manage their Intellectual Property assets.

The European IP Helpdesk is managed by the European Commission's Executive Agency for Small and Medium-sized Enterprises (EASME), with policy guidance provided by the European Commission's Directorate-General for Internal Market, Industry, Entrepreneurship and SMEs (DG Grow).

The information provided by the European Union IP Helpdesk is not of a legal or advisory nature and no responsibility is accepted for the results of any actions made on its basis. Moreover, it cannot be considered as the official position of EASME or the European Commission. Neither EASME nor the European Commission nor any person acting on behalf of EASME or of the European Commission is responsible for the use which might be made of this information.
